

### The Box M Gang by Mark Redmond

Children's 1800s US Historical Fiction.

The year is 1875. The Arizona Territory is a wild, sparsely settled place. The Martin family's Box M Ranch is ten miles from their nearest neighbor and twenty miles from Tucson. Ma has been gone for two years, and Pa hasn't been the same since she passed. Something inside him broke when he lost her. Fifteen-year-old Ruth, fourteen-year-old Thad, twelve-year-old Sarah, ten-year-old Bart, and eight-year-old Billy have been doing most of the work to keep the Box M running. Consequently, when Pa passes away, the Martin siblings face little change in their daily routine as far as their chores go.

They do, however, face an ominous threat. Ruth, Thad, and Sarah know they can continue to run the Box M without Pa. They also know if folks discover Pa has passed away, the local lawman will load the Martin siblings into a buckboard and haul them off to the orphanage near Tucson. Ruth is confident she, Thad, and Sarah can protect their secret from the occasional travelers who visit the Box M, but she's concerned about Bart and Billy. They need to practice their conversations with each other to prepare for talking with strangers. They need to pray for God's help as they tackle a nearly impossible task. They need to work together. They need to become the Box M Gang.

During the next few months, visitors to the Box M include the sheriff, a bounty hunter, cattle rustlers, and a family with five small children. Some of the visitors stay long enough to rest and water their livestock.

Some spend the night and move on the next day. Others overstay their welcome. All of them pose a threat to the Martins.

Can they keep their secret and remain on the Box M? Saddle up, and let's find out!

## Westerns For Grownups

### Bounty Hunter Nate Landry: Major Issues by Mark L. Redmond

Book 1 of 2: Bounty Hunter Nate Landry

The stereotypical bounty hunter in tales of the old West is an unprincipled, dirty, back-shooter, who is only motivated by the reward money he collects. Nate Landry and his best friend Wolf are a different breed of bounty hunter. They witnessed too much killing during the Civil War; consequently, they try to subdue the outlaws they're after by using their brains instead of their bullets. But when Anna Thomas asks Nate to rescue her kidnapped son and see that the kidnappers are punished, he and Wolf find themselves chasing an enemy from their past. This man is so evil that killing him may be their only option-if he doesn't kill them first. If you like adventure, humor, and the old West, saddle up and get ready to ride!

## **5 Stars: The Language Of A Six-Shooter!**

Author Mark L. Redmond is a western action-adventure writer, who takes his readers back to the old wild west in 1877, where campfire coffee is strong and everyone knows the language of a six-shooter.

Chapter One of *Bounty Hunter Nate Landry: Major Issues* opens in Florence, Arizona, when Bounty Hunter Nate Landry returns home to find Anna Thomas waiting in his cabin with her pistol aimed straight at him. Anna is a mother on a mission to recover her kidnapped son Daniel.

The adventure unfolds as Nate and his trusted companion Wolf, accompanied by Anna, begin their search for Daniel Thomas.

Here is a quote from Chapter Six, as Nate, Wolf, and Anna go in search of bad man Major Campbell.

...We rode in silence for nearly an hour, letting the horses run awhile in the coolness of the morning. I was praying and watching. One of the things that made Campbell so dangerous was the fact that he was unpredictable. He had often succeeded in defeating the rebs by making moves that no other officer would have considered. He had never cared about sacrificing the lives of his men. Most of the time, the insanity of his tactics had protected his soldiers. He had favored the element of surprise, and he had known how to make it work in his favor. I reckoned Campbell hadn't changed.

...I considered the matter of what to tell Anna about Campbell and how we had met David. We had no idea of what she already knew about this devil who had murdered her husband and stolen her son. And then she told us. "We named him after you," Anna said.

...I looked at her, but she stared straight ahead. "Daniel Nathan Thomas," she said. "David wanted to name our son after you. He said you and Wolf had saved his life. He was wounded and came home a year before the war ended.

...He told me about what happened to the other men who were captured with him. He always believed that God had spared him so that he could take care of me—"

...Anna began to cry softly.

... "I'd like to kill Campbell very slowly," Wolf said.

... "I reckon he'd do the same to us if he got the chance," I said.

... "If and when he finds out who we are," Wolf said, "he'll come after us. We have the edge right now because we know who he is. All he knows about us is that we're two riders escorting Mrs. Thomas."

If you need a change of pace, miss the old, wholesome western stories, and appreciate mid-western Christian values, *Bounty Hunter Nate Landry: Major Issues* should be your next read. Author Mark L. Redmond has two western books for "grownups" and six westerns in his *Adventures of Arty Anderson* series, geared for middle grade readers.

## **Bounty Hunter Nate Landry: Family Fury (Book Two) by Mark L. Redmond**

Book 2 of 2: Bounty Hunter Nate Landry

In the second book of the series, Nate Landry and his partner Wolf plan to track down and capture Luke Womack. The job should be a relatively easy one. However, when Luke's four outlaw brothers find out that he's been captured and ride to Wickenburg to rescue him, Nate and Wolf will encounter a load of family fury. Saddle up, and ride into another adventure with them!

### **5 Stars: Angry Hornets or Five Womacks?**

Author Mark L. Redmond uses his great sense of humor to open book two in his 'Bounty Hunter Nate Landry' series.

This is Wild West storytelling at its best, with high-action drama that will draw you back into 1877, where the Arizona Territory comes to life with three bank robberies, four stagecoach robberies, and a murder.

In 'Bounty Hunter Nate Landry: Family Fury (Book Two); Nate and Wolf (his trusted companion) study and discuss a reward poster over coffee, after eating a hearty breakfast. The two men ponder the reward money offered for Luke Womack and his sidekicks. What they need is a plan.

Let me bring you into the story at Chapter 7:

...One of the things Wolf and I had learned while we were soldiers was the value of surprising the enemy. Often we had defeated forces that were superior to ours in both number and skill because we had caught them off guard. Catching the Womacks off guard wouldn't guarantee that Wolf and I could beat them, but we reckoned it would give us an edge.

...We were leaning against the hitching rail in front of the mercantile, enjoying the warmth of the mid-morning sun and smoking cigars. We were also making plans.

... "The Womacks will expect us to be waiting for them here in town," I said.

... "Because they don't know us?" Wolf asked.

... "Exactly," I said.

... "They'll also be looking for two men," Wolf said. He tapped the ash from the end of his cigar. "So, we're going to split up?"

... "And watch the trail from both sides of town," I said. I exhaled smoke, smiled, and touched the brim of my hat as two ladies crossed from the other side of the street to enter the mercantile.

... “We’ll be close enough that whoever sees a Womack first should be able to signal the other,” Wolf said. He took a long draw on his cigar, leaned his head back, and blew the smoke into the air. “With one of us in sight and the other hidden, I reckon we’ll still have an edge.”

Putting the plan into action, they pack their supplies and saddle their horses with confidence. The plan sounds easy enough, but the adventure has just begun. This story takes place where the west is wild, outlaws terrorize small towns, and the brave bounty men ride in pursuit of justice.

The ‘Bounty Hunter Nate Landry’ series is comprised of stand-alone books, geared for YA and Adults. Author Mark L. Redmond has also produced a western adventure series for middle school readers, titled ‘The Adventures Of Arty Anderson’. Mark taught high school English for 28 years in South Bend, Indiana. He is a member of Western Writers of America, Western Fictioneers, SCBWI, ACFW, and the Single Action Shooting Society. He has been studying the West through reading and travel for most of his life (and he's an old timer, born in 1953). Mark and his wife Susie live in Arizona, where Mark has turned his attention full-time to writing more old western tales. I am looking forward to book three in the ‘Bounty Hunter Nate Landry’ series.

FICTION

For nearly twenty years, Mark L. Redmond had been telling stories about the old West to young readers. Finally he's turning his attention to "big kids." Here's a collection of some of his best stories, including three that were unpublished until now. Redmond's stories are not typical tales of shootouts and quick draws. In his unique way, he has created some delightful characters who choose to outsmart their opponents instead of out-shooting them. Redmond is the author of the six-book middle grade series, *The Adventures of Arty Anderson* (Sword of the Lord Publishers, Murfreesboro, Tennessee). His story "The Spittoon" was a finalist in the 2010 Moonlight Mesa competition; "The Switch" appeared in a storyteller's edition of *Grit* magazine; and "The Reward" was published in *Elbow Creek*. Mark and his wife Susie are workcampers. They live in a motor home and work in camp resort parks from Indiana to Arizona. Together they have six children and nine grandchildren.

Mark L. Redmond taught high school English for almost thirty years. He has written more than twenty-five articles and short stories, as well as a six-book middle grade fiction series. Although he has lived in the Midwest for most of his life, Redmond's research has taken him to many of the western states. He belongs to the Single Action Shooting Society and to Western Writers of America.
