The Viewing by Glenn Sartori

The Viewing is based on a historical event. An ancient relic, kept in a Greek monastery for centuries, is to be transported to Russia for a public event called The Viewing. Popular blogger, Mark Donatello, learns that his twin brother, the resident archivist at the monastery, is part of the entourage heading to Russia. Concerned about his brother, Mark and his girlfriend, Kyler Holden, wade through facts and rumors about the relic, face a startling discovery from the past, and uncover a bizarre plot that may lead to a violent end of The Viewing. The Viewing is a fast-paced story about devious intentions, shady alliances, and how unplanned events sway one's religious beliefs.

The Triplets’ Secret by Glenn Sartori

Jennifer Sturgis Mystery Book One.

Retired journalist Jennifer Sturgis never imagined one cold case would change the course of her life. That case—the mysterious disappearance of Crystal Scott—has been unsolved for fifty years.

The main persons of interest were the “Triplets,” three women never charged, but branded guilty by an entire town. Now in their eighties, the triplets, fascinated by Jennifer’s blustery entrance into their calm life, allow her an interview—with one bizarre condition.

Jennifer accepts. Soon she is mesmerized by the old women’s tale. Disturbed by possible connections to her family, she finds herself facing a vengeful gunman. But no matter the risks, she is determined to publish their story.

The Triplets’ Secret is a story of obsession, reinvention, and shocking revelations that compel Jennifer to question everything—even her own identity.

Review by Chris Flesor: 5.0 out of 5 Stars. A fun, witty detective story laced with unpredictable twists.

Reviewed in the United States on July 14, 2019. Verified Purchase I loved the whole premise of this book. It had that small town feeling where everyone knows more than they should about you, but never really know you at all beyond family lore. The triplets were stuck with those assumptions and yet chose to live in their town with strength and fortitude. They were such rich characters! The plot was strong, took lots of fun twists and surprises, along with the reveal of secrets. It was a fun book, a good mystery, and I hope to see more about the gutsy heroine in her growing career as detective. This is definitely one I recommend!

Her Father's Past by Glenn Sartori

Jennifer Sturgis Mystery Book 2.

Private Investigator Jennifer Sturgis has had her share of odd cases. But when she receives a cryptic letter inquiring about the health of her father, she is stunned—her father has been dead for thirty-five years. That letter leads to a mysterious client who hires Jennifer to find her father.

Eager for answers, she soon flounders in a maze of contradictory stories—nothing makes sense. Then an apparently unrelated murder exposes shocking Sturgis family secrets and connections to a shadowy organization. What had Jennifer's father done? Was her father alive?

Her Father's Past is a story of lies, personal conflicts, and a painstaking search that leads to a dark-web chatroom—and eventually, the truth.

Review by James Rehg: 5.0 out of 5 Stars. Another wonderful plot driven mystery with more twists and turns than a mountain road. Reviewed in the United States on July 16, 2021. Once again, Jennifer is involved in a case where the evidence points too close to home. Is her father alive or dead, and if he is living, where is he? The author keeps the tension and suspense redlined until Jennifer answers that question in her classic investigative style. It's a good quick read scattered with red herrings. Pack it for your next trip to the beach or business flight and enjoy a fun book.

You will definitely laugh and relate to Glenn's career twists and turns whether you

are a "dinosaur" or a millennial working in corporate America! Well-written with clever self-editorials and lots of fun references, this memoir was a refreshing break of fun and wit, during the troubling time we currently find ourselves.

South City Mosaic: Life On Alaska by Glenn Sartori

South City Mosaic Series Book One.

I grew up in the South City on a street called Alaska. The mosaic of my early years is like a collection of tiles in a multicolored mural. The tiles were pieced together by many hands —my loving and stable family, the tightknit neighborhood, my grade school friends, and the compassionate nuns at St. Cecilia’s School. Come back and visit those years with me. Perhaps my grade school adventures will make you smile...and possibly help you recall your own cherished childhood memories.

5 Stars: South City Mosaic: Life On Alaska Will Capture Your Heart and Mind!

Whether you are young or old, *South City Mosaic: Life On Alaska* will capture your heart and mind as endearing, heartfelt boyhood memories from Kindergarten through Eighth Grade are experienced in and around Glenn's house and loving family home on 5226 Alaska Ave.

Twenty-two life packed chapters that truly begin on April 10, 1940 when Glenn was born. Read the well-placed words of Glenn's vivid childhood memories that will take you back in time to the sights, sounds, smells and yes, tastes of a simpler, kinder, and gentler life.

There are so many examples that I want to share with you, so choosing this one is difficult, but reflective of the mood and character of the stories. I quote: "In the 1940s and 50s, before electronic games and computers, collecting and trading baseball cards was a boyhood passion everywhere, and my grade school was no exception. The chance of getting a Mays, Mantle or Musial was thrilling, and to get the final card that completed your set of any baseball team, especially the St. Louis Cardinals, was a victory. Cards with pictures and stats of baseball players were the only type available, no hockey or football players. I bought mine at my neighborhood grocery store—a nickel for five cards packaged with a sheet of bubblegum. If I think about it, I can still smell the bubblegum aroma that wafted from the open package. Chomping down on the malleable pink sheet of gum filled my mouth with sugary juices. As vivid as the memory of chewing the gum is, I have no recall of blowing bubbles. Maybe I never acquired that skill set.

On many days after school, my friends and I would trade baseball cards, usually on someone's front porch. It was always fun and a good way to complete a team. Shouts like "I'll trade you a Duke Snider for an Alvin Dark. Or I'll trade you a Yogi Berra for a Gil Hodges" were flying around the group. Sometimes we'd trade two for one, and occasionally three for one if someone really needed a particular player. We'd even coordinate trades between three or four kids. I loved those times. (I had a fine collection but not now. After I'd been gone from home for few years, I discovered that my dad had donated, among other things, the baseball cards to the St. Joseph's Orphan Home for boys. Maybe they enjoyed them, traded them as I had.)"

Look at the 21 photos from those days and let your taste buds recall one or more of the included recipes that will draw you back in time. If you are young, you will learn valuable information about life for one young boy in the 40's and 50s. If you are older, the memories written in this book will no doubt trigger some pleasant memories of your childhood.

Compare your childhood with Glenn's, his first cigarette, first kiss and so many more firsts, which you will not want to miss. Like me you will be forced to wait for Glenn's promised book two and three in his *South City Mosaic Series*.

South City Mosaic: Life On Alaska by Glenn Sartori is a childhood memoir worth reading. Read all Author Glenn Sartori's books found at Amazon.

Editorial Review (Book Marketing Global Network).

Review by Martha A. Cheves (VINE VOICE): 5.0 out of 5 Stars. Read the book to see what they were and how much fun they gave us all. Reviewed in the United States on August 8, 2016. Verified Purchase. I was born in 1949 making me just a little younger than this author so when I saw that his book contains memories of his childhood, I had to read it. Through these memories he has not only restored my own memories but has also given me a few laughs along the way. If you're anywhere within this age group, see how many of these items you too remember. If you're not in this age group, read the book to see what they were and how much fun they gave us all.

Do you remember:

A 4 bladed push mower - no motor!

Two 2 x 2 wooden posts cemented in the ground (if you're lucky) with a wire strung between them - yep, the clothes line!

Black pieces of coal - no not charcoal like used for BBQ. These went into the furnace, with a fire, and heated your home!

The cards that you sometimes clipped to your bike wheels to make noise - You got it, Baseball Cards that you would give your eye teeth to have now!

Penny candy - sometimes you could even get 2 pieces for a penny - those days are gone forever!

These are just a few of those memories many of us still cherish. There are many more that I had buried and were brought back to me by this author. Just a few are - the scouts, dinner at the table as a family, mom's home remedies, and a real oldie - the 1st kiss.

As I said, if you aren't a baby boomer that grew up in these times, you'll still get a kick out of what your parents and grandparents did when they were kids. To the author I say "Thanks for the Memories."

Review by Ellen B.: 5.0 out of 5 Stars. A lovely memoir engagingly written. Reviewed in the United States on April 11, 2016. Verified Purchase. The question, "Where did you go to high school?" is commonly asked in St. Louis; but, "What parish did you live in?" is certainly a close second. Glenn Sartori's *South City Mosaic: Life on Alaska* is a charming and engagingly written memoir of his childhood on the city's South Side, where he attended church and school at St. Cecelia's Parish.

Glenn details his early years in a modest brick cottage on Alaska Street, introducing us to his family, his childhood friends and his teachers. Delightful vignettes paint life in a simpler time: trading baseball cards on a friend's front porch; walking to the local theater for a Saturday movie; diagramming sentences under sister's stern gaze; learning to be an altar boy; and, experiencing a first kiss--or two.

Glenn's stories stirred wonderful memories for me since I was growing up a little farther south on Grand Avenue in a very similar house, also on a street lined with sycamore trees, but in St. Stephen's Parish. The

boys at St. Cecelia's were more daring than the girls at St. Stephen's, however, and I laughed out loud reading Glenn's retelling of how the boys selected their confirmation names to form slightly sacrilegious acronyms with their initials. GAS (yes, Glenn chose St. Anthony) and ASS were highly rated.

I look forward to *Life on South Grand*, the second book in Glenn's trilogy, which will recount his high school years at the all-boys' St. Mary's. I'm sure that once again my memory will be jogged. After all, while Glenn was at St. Mary's, I was just a street-car ride away, attending the all-girls' high school, St. Elizabeth Academy.

Review by Dori Coe (formerly Doris Singer): 5.0 out of 5 Stars. It was so much fun to reminisce. Reviewed in the United States on November 25, 2017. Verified Purchase. Knowing Glenn in the 50s, 60s and 70s, it was so much fun to reminisce. I knew him from teen towns, from St. Mary's (we were the competition at BISHOP DUBOURG), I knew him through college and when we both married. I always had great respect for him and his family. I was taken back in time. I so enjoyed all three books. I giggled, I cried. You can't read just one book—you have to read them all. Memories, memories, memories. Thanks Glenn.

Thanks, Glenn, for your book *LIFE ON ALASKA*. It rekindled fond memories of our childhood. What a wonderful era in which to be born with a neighborhood centered around church and school. A time that cannot be duplicated and will never return. Our generation enjoyed the simple pleasures; freedom to walk for blocks, day or night, without any fear, family picnics, climbing trees, playing bottle caps, singing songs of the 50's and so much more. This way of life may be lost forever but your book will always keep our wonderful childhood memories alive!

It is a biography of his childhood, with particular focus on his experiences at St. Cecilia's Catholic Grade School in South St. Louis. His detailed memories of this period lead one to understand how much different childhood and educational experiences are from today. Glenn's memories will take you back to those early years and if you grew up Catholic you will be right there with him in the classroom living in fear of the nuns or insisting to your mom that you had to do it because "sister said". It is amazing that the book touches on so many of the experiences we all had regardless of where we lived. South City Mosaic: Life On South Grand by Glenn Sartori

South City Mosaic Series Book Two.

It was a short walk, six city-blocks from my life on Alaska to my life on South Grand. The time was the mid-1950s. The high school was St. Mary's, an all-boys Catholic institution, located on South Grand Avenue.

Besides receiving a good education and forging lifelong friendships, those four years were filled with classroom antics, pep rallies, football games, after-school, and summer jobs, and of course, girls. So ... find a comfortable spot and come back with me to those high school years and perhaps my adventures will make you smile ... and possibly help you recall your own cherished memories.

Review by James Rehg: 5.0 out of 5 Stars. Glenn helps the reader relive what many consider the best years of their lives “high school”. Reviewed in the United States on October 16, 2016. Verified Purchase. Life on South Grand is Glenn's second book in his memoir trilogy and no more than a short walk down the block from his first book, Life on Alaska. As in book one, he uses a humorous storytelling style and vivid details to paint clear images that carry the reader back to high school, a special time and place in life. In Life on South Grand he chronicles his life as a student in the mid-1950s at St. Mary's, a Catholic all boys high school, on South Grand. However, students who attended any private or public high school in those years will find that Glenn's stories conjure up similar memories as they look back around the corner of their lives at their high school years. He reminisces about classes taken and the instructors who taught them. While some classes and teachers reshaped his life, others were much less memorable. His stories include reflections on working at after school and summer jobs, playing high school sports, attending football pep rallies and games, and making friends that would stand the test of time. In general, Glenn helps the reader relive what many consider the best years of their lives “high school”. He invites the reader to enjoy again the excitement of finding their first steady girlfriend or boyfriend and attending school mixers, dances, and proms. Relive with Glenn the sometimes-painful experience of growing up—a challenging experience that four years of high school foists upon every student. Enjoy a good read—and let Glenn's adventures make you smile and help you recall your own cherished memories.

South City Mosaic: Life On West Pine (1st Edition) by Glenn Sartori

South City Mosaic Series Book Three.

This is it...My final book in the South City Mosaic trilogy—life on the West Pine Campus of St. Louis University—takes a humorous look at my college years. Fraternity parties, intramural sports, and shared experiences built the groundwork for lifelong friendships. And yes, I did attend classes where I experienced bizarre professors and participated in juvenile pranks, and along the way managed to earn an electrical engineering degree.

This book was wonderfully done, specifically for those readers who lived parts of the tale. Glenn completely understands

what happened in the South part of St. Louis in the late 50s and early 60s to young people. He then chronicles these stories. South ST. Louis and our stories are gone and civilization as we knew it began its vicious downward spiral not long after those tales were playing out. It was so wonderful to go back and see again what life was like then thanks to "Life on West Pine".

Union Of Friends by Glenn Sartori

Riverfield Series Book One.

The announcement of Union Miller's death arrived with the Saturday mail. That notice pushed Travis Gibbs to return to Riverfield only to discover that his best friend, Union Miller, had been dead for two years.

It was an open and shut murder case—Union had stalked a woman, had killed her, and then had been killed by her husband. However, women had always pursued Union. Why stalk one? Why kill one?

The search for answers propels Travis on a deceit-filled journey that ends in a conclusion he can't believe, until violence steps into his life.

I really loved the detailed descriptions of the characters (I hate when you have to wonder what a character looks like and even, at times, what someone is wearing! I felt connected to the main character, Travis, liked the fast pace of changing locations, backdrop: from small town in Missouri to Honduras. Just when I thought I had a few things figured out about the story, the author threw in more than one plot twist. I think I need to read it again to find those clues! I hope to see Travis in future books. It reminded me of the old-fashioned "film noir detectives," but with a contemporary lightness. I recommend this book to mystery readers.

So vividly described that I felt like I was right there the whole time feeling everything that Travis was feeling. Friends and small towns all intimately intertwined. I great mystery. I loved it! Review by Martha A. Cheves (VINE VOICE): 5.0 out of 5 Stars. They were best friends. Yet "Union was murdered two years ago." Reviewed in the United States on March 6, 2017. He felt a contraction in his heart and a cold tingling in his face, and couldn't utter a word. Two years Travis thought. He lost the power of sight for an instant, but he conquered his emotion by a strong effort of willpower, almost a transport of rage. Why had she waited two years before telling him? He felt numb, lost, and as if he had just awakened from a coma and was being downloaded with events he missed. The words two years rolled through his mind - Union has been dead for two years. He heard her say something about coffee, and he followed her into the house, his mind returning to reality.

Union Miller and Travis Gibbs had grown up together. They were best friends. Yet, he had been dead for two years and Travis never knew until he received a letter from Union's mother stating 'My Union was murdered. Please come. He didn't do it.' So, he went to Riverfield to find out who killed Union and why.

According to the police Union killed Patti and Patti's husband killed Union. But why? This simply wasn't the Union Travis had known the better part of his life. And because of this, he was determined to find out what really happened. With the help of an old schoolmate Travis started his investigation through which the name Global Friends kept popping up. Could there be a connection? Could Union have found information regarding this company that needed to remain hidden?

Union of Friends is one book that kept me in the dark until the end. I never knew where it would lead me next nor which character could really be trusted. Author Glenn Sartori let nothing slip which kept me turning pages as I tried to decide how everyone connected. I'm now looking forward to the next book in this series.

Consequences of Falling by Glenn Sartori

Riverfield Series Book Two.

Tragedy, murder, and conspiracy push three Riverfield residents down unfamiliar paths...

.... a psychologist who takes on an unethical mission; the wife of a detective who inserts herself in a murder investigation; and a former cabaret hostess who risks everything in order to discover her lover's killer.

Mayhem abounds as Union Miller unwittingly becomes the link between the three—whose actions result in unexpected consequences that change the fiber of Riverfield forever.

5 Stars: Finally, Here!

Riverfield Novel Book Two is finally here and titled Consequences of Falling.

Bradley and Elizabeth survived a whirlwind romance, elopement, and great sex, for two people who are as different as day and night and then their daughter Jessica was born.

Tragedy unfolds and life changes direction for Elizabeth. I Quote:

“As the clouds rolled across the sky obscuring the last bit of the evening light, Elizabeth kept watching the lake from her apartment’s deck. She thought of herself as a woman always watching something in motion, which was shifting and changing. She wasn’t in motion, or was she? It made her light-headed to think of this. She yearned for her mind to be clear like the water, to be clear of that day in court. And the occasional woodpecker’s remote tapping and the air rending silence that followed it were only sounds registered in her head. They were meaningless, but that day in court was not.

It seemed her thoughts were determined to wander along that shadowy path, where court arguments laid like exposed roots across the forest floor. It was the day that her life totally fell apart, the day she lost her daughter. It had happened last month.”

How could things go so wrong?

It is October 1989 and Elizabeth Trent finds herself running from her past and the only answer might be revenge. A new counseling job in Riverfield, Missouri at the CYA clinic might be a good start. Would returning to the place of her childhood be the answer or would there be old ghosts?

Falling into the routines that a small town has to offer; Elizabeth immerses herself into her clients and secretly hopes she will bump into an old heart throb Union Miller. The mundane has a way of becoming short lived when secrets threaten to break free.

Murder and mayhem begin on Monday May 7, 1990. Can Elizabeth live with the consequences of her actions? Join the investigation as “The morning fog was as thick and wet as breath on a mirror, dimming the heat lightning in the air. Yellow bolts the color of a cat’s eye forked out above the police station. Inside an oppressive mood had settled over the building. Everyone was feeling frustrated. They needed some sort of concrete lead in order to move.”

Romance, tragedy, abduction, murder, and conspiracy engage this well-developed cast of characters that include detective John Turner, Mike Ryan, Anne Turner, Kimberly Young, Peter Benton, Randy Bennett, Connelly Dunnerman, and Seiko Dunnerman. The events that unfold will change Riverfield’s small town forever, for now fear grips the community.

I love this fast-paced novel with lots of suspense and mystery. Author Glenn Sartori uses real life stories as inspiration for this novel. He includes an excerpt from his next Riverfield Novel titled ‘Reflections Of Triplets’.

I invite you to read Consequences of Falling (Riverfield Novel Book Two) by Glenn Sartori. I reviewed this book from a Kindle format. I suggest you also read book one in the series titled Union Of Friends. Author Glenn Sartori has also published South City Mosaic: Life On Alaska which I have also enjoyed as book one in his South City Mosaic Series and his stand-alone book titled Epiphany.

Review by James Rehg: 5.0 out of 5 Stars. A chance to visit Riverfield again—don't miss it. Reviewed in the United States on January 14, 2017. Verified Purchase. Riverfield novel book two gives yet another look into the lives and characters in this small Mississippi River town. Union Miller, a featured character in book one, has a lesser but important role in the solution of several murders while new protagonist emerges as detectives in Sartori's current book. Sartori continues to deliver vivid descriptions of people, places, and events while his character change and grow.

The novel is divided into three parts. Part, one has extensive backstory for several families suffering tragic events and introduces characters with a need to find answers to murders and apparent suicides. Be sure you get to the second and the third parts where the pace increases and the solution to several murders unfolds.

Book two is a good mystery and equally good read. I like to discover great sentences in the stories I read, and Sartori did not disappoint me. I found and marked numerous ones throughout the mystery. I recommend it.

When Grace was abducted and found dead, her father, Peter Benton accused Kimberly of being involved and attacked her. She died shortly after the incident in a fiery car crash, then Peter was found by his boss, Ito, with his throat slashed in his home. Peter's co-worker at Shikata, Connelly Dunnerman was found by Ito in his office with an apparent heart attack. Were the deaths related? Was there a conspiracy at work? Epiphany by Glenn Sartori

In medieval Russia, a battlefield historian is commissioned to transport treasures from invasion-torn south to a haven in the north. Centuries later, four events occur simultaneously.

Grace Sawyer, on her summer sabbatical at the Rosanov Art Institute in Yaroslavl, stumbles upon a black stone from a medieval Russian treasure. Richard Simon, an art historian in New York, is solicited by a friend in the CIA to journey to Yaroslavl on a cryptic quest.

In Kiev, the brother of the president of the Ukraine is assassinated, and a group of men plan to violently end the Epiphany—the historic meeting between the Pope and the Patriarch of Russia.

Within a week, these events will mesh in a violent climax that echoes in the halls of the Rosanov Art Institute.

Review by #1 Librarian: 5.0 out of 5 Stars. #1 Librarian Reviewed in the United States on February 13, 2014. Verified Purchase. First-time novelist Glenn Sartori presents a story of intrigue that begins in Medieval Russia and then takes its readers to the present day where the world is awaiting an historic event – the joining of the Roman Catholic Church and the Eastern Orthodox Church -- the “Epiphany.” Reminiscent of Dan Brown’s Robert Langdon, an art historian named Richard Simon finds himself in Russia where he unwittingly uncovers a secret plot to assassinate the leaders of the two churches. Soon Richard and art teacher Grace Sawyer are thrown together to foil the assassination plot. A series of murders, close escapes, and secret encounters keep readers guessing and eagerly turning the pages of this exciting story.

Review by Edward Farber: 5.0 out of 5 Stars. Excellent Read. Reviewed in the United States on June 13, 2015. Verified Purchase. It’s a winner (as the late Jack Buck, famous St. Louis Baseball Cardinals’ announcer, used to say) for St. Louis author Glenn Sartori’s novel, Epiphany. This mystery novel blends religion, Russian history, and the art world into a fast-paced read that will grab you at the Prologue and keep you enthralled until the very last page. In between, you’ll follow Rick Simon and Grace Sawyer as they become enmeshed in murder and intrigue--even a romance that blossoms amid all the action. To continue the baseball analogy, Sartori has hit a homer in his first novel. I’m looking forward to his next.

Review by James Rehg: 5.0 out of 5 Stars. A story that works. Reviewed in the United States on January 23, 2014. Verified Purchase. A good story told by a good story teller. The plot held together to the end and had enough twists and turns to keep me turning the pages. The only negative was it suffered the same problems as the Girl with the Dragon Tattoo, many characters, places, and streets and all with difficult names to remember. But that is not bad company to be associated with and is the case with many books placed in Eastern European and the Scandinavian countries. It was a most enjoyable read and a great first book. If you like mysteries, put this on our list.
