New York Author Dr. Mitchell Maiman!

The Rainbow Diary
Mitch Maiman

In *The Rainbow Diary*, author Mitch Maiman takes you on a remarkable journey through the realms of life, death, and the hereafter. Kenneth Talbot, a man facing the imminent end of his life due to a terminal illness, finds himself at the precipice of existence. But his story isn't just about dying; it's a heartfelt exploration of love, redemption, and the profound moments that shape our lives.

Kenneth's battle with pancreatic cancer has stretched over three and a half grueling years, far beyond the eighteen months he was given. Now, in his final hours, he embarks on a quest to reconcile his tumultuous relationship with his son, Brian, and to express the depth of his feelings for MaryAnn, his devoted nurse. As his consciousness hovers between past and present, Kenneth gains poignant insights into the human psyche, grappling with fatherhood, forgiveness, and regret.

With grace and authenticity, *The Rainbow Diary* presents a captivating vision of what may await us in the afterlife. It is a message of hope and optimism that transcends the boundaries of conventional fiction. This imaginative and inspiring novel offers solace to anyone who has experienced the loss of a loved one and yearns for a glimpse of the ethereal.

Prepare to be immersed in a unique narrative that defies expectations and provokes profound contemplation. *The Rainbow Diary* is a touching tale that invites you to embrace the uncertainty and glory of each person's fate.

Dr. Mitch Maiman is a retired physician with a distinguished academic, clinical and research career. He has been recognized for his numerous educational contributions in his field and his devotion and commitment to the teaching of residents and fellows. In *The Rainbow Diary* he explores profound themes and delicate content, and blends his medical expertise with creative storytelling, offering a unique perspective on the journey of dying and the hereafter.

Mitch lives in Long Island, New York, and is an avid tennis player and practitioner of yoga. He first demonstrated his literary prowess in his eye-opening novel, *Every Third Night*, delving into the harsh realities of medical training in a dehumanizing, urban setting.

The Rainbow Diary by Mitch Maiman.

"More Than A Novel; It Is A Sanctuary For The Soul".

Embracing Life's Final Colors: A Heartfelt Journey through Loss, Redemption, and the Unknown.

In the tender pages of *The Rainbow Diary*, embark on an extraordinary odyssey that transcends the boundaries of life and death. This poignant tale weaves a tapestry of love, loss, and redemption, resonating deeply with anyone who has felt the sharp ache of losing a loved one or grappled with the haunting anxiety of mortality.

Meet Kenneth Talbot, a man on the precipice of his final journey. Diagnosed with pancreatic cancer, he confronts the fragility of his existence. As the sands of time slip away, Kenneth's reflections paint a vivid

portrait of human emotion. His story becomes a mirror, reflecting the joys and regrets, the triumphs and heartaches that define us all. Amidst the pain, Kenneth finds unexpected solace in the most unlikely places. His bond with his teenage son, Brian, becomes a source of profound reconciliation, a testament to the enduring power of familial love. The gentle presence of MaryAnn, his devoted nurse, becomes a beacon of hope, guiding him toward acceptance.

The Rainbow Diary is more than a novel; it is a sanctuary for the soul. It delicately explores the complex nuances of life's final moments, offering a glimpse into the afterlife that is both imaginative and comforting. Through Kenneth's introspection, readers are invited to confront their own fears and anxieties, finding solace in the shared human experience. This book is a testament to the resilience of the human spirit and a celebration of the enduring power of love that transcends the boundaries of time and space.

Immerse yourself in this extraordinary narrative, and let The Rainbow Diary be your guiding light through the labyrinth of life, death, and everything in between.

Review by LSchwartz: 5.0 out of 5 Stars. Alternative view of death. Reviewed in the United States on April 8, 2024. Verified Purchase. The Rainbow Diary describes the ordeal of dying and life redemption. After dying the book then speculates on what form an actual death consists of. It was thought provoking in any number of ways.

Review by Amazon Customer: 5.0 out of 5 Stars. Great read that will inspire introspection. Reviewed in the United States on March 17, 2024. Verified Purchase. This is a thought provoking and emotional book that makes you consider your own life's journey, choices, and legacy while offering an intriguing concept of what comes next after death. It may not be a light read, but you will be glad you invested the time to read it

Review by Kathy Waters: 5.0 out of 5 Stars. Wonderful perspective of dying. Reviewed in the United States on March 6, 2024. Verified Purchase. The author provides a comforting and unique perspective on dying, reflecting on not only forgiving ourselves but forgiving others for their actions. Great read and wonderful insight on the dying process and focusing on the importance of loving each other.

Review by Bobby D.: 5.0 out of 5 Stars. Stunningly Beautiful. Reviewed in the United States on March 13, 2024. Verified Purchase. A superbly written and uniquely poignant novel on a delicate subject that will inspire readers and stir their emotions...

Review by Caryn McGill: 5.0 out of 5 Stars. Wow! What a read! Reviewed in the United States on May 1, 2024. I love stories about what the other side of death might hold. The author takes us on the journey of his best friend as he faces his impending death and how he makes peace with the regrets he has about his life. A poignant, emotional read!

Review by Bruce Sims: 5.0 out of 5 Stars. Inspiring. Reviewed in the United States on April 15, 2024. A beautifully written book about an uneasy subject. This well-written book puts into perspective what is really important in life, and it also puts a spin on the afterlife. It's a must read!

Review by Stefanie S: 5.0 out of 5 Stars. A poignant journey through life's greatest challenges. Reviewed in the United States on March 31, 2024. If love binds us, forgiveness sets us free. The Rainbow Diary is a multi-layered emotional novel that grapples with family relationships and mortality. It will compel you to smile, tear up, and reflect on life's truest priorities. Well written and worth reading.

Every Third Night by Mitch Maiman.

“Delightfully Captivating and Beautifully Written”.

"Every Third Night" is an eye-opening yet poignant story that is set in a busy, dehumanizing, and unyielding New York City residency program in Obstetrics and Gynecology in 1984. It brings the reader into the real world of medicine at a time of limited supervision and brutal duty hours through the vantage points of young physicians enduring stressful conflicts and volatile relationships.

Protagonist and chief resident Jimmy Zito seemingly has it all- brilliant clinical skills, handsome, a talented teacher, and a gorgeous girlfriend to boot- but a troubled past and a rash of new conflicts leave him struggling to survive in this, his last month of training. He desperately tries to guide his fellow residents through their own personal traumas, but is not nearly as well equipped to handle the pressure as others might think, especially considering the toxic and exhaustive work schedule, unchecked aberrant behavior of attending physicians, and the highly competitive and emotional demands of Ob-Gyn.

Intern Henry Deluca grapples with the consequences of a horrific surgical complication that he feels responsible for. Co-chief resident Greta Greenberg struggles with her personal dilemma in a busy abortion clinic. Best friend Mike O'Rourke is driven to madness by an unreasonable superior's callousness concerning a dying patient with ovarian cancer. And Kim Clark, Jimmy's occult but obvious love interest, is at wits end after constantly being tortured by her sadistic Chairman. Jimmy's ultra-needy girlfriend and stubborn father do not make things any easier. The intertwined subplots all mesh together and come crashing down when an unexpected, dramatic and haunting mishap leaves the program reeling and Jimmy's life forever transformed.

Dr. Mitchell Maiman became a physician at age twenty-four and is now retired. As a specialist in Obstetrics and Gynecology and sub-specialist in Gynecologic Oncology, he has had a distinguished academic, clinical and research career in medicine and served as both a Director of Gynecologic Oncology and Chairman of Obstetrics and Gynecology at major New York City based university hospitals. He has been recognized for

his numerous educational contributions in the field and his devotion and commitment to the teaching of residents and fellows.

Mitch lives with his wife, Dr. Judy Levy, in Long Island, New York and is an avid tennis player and practitioner of yoga. They first met during their residency training. This is his first novel.

Review by DK: 5.0 out of 5 Stars. Highly Recommend this Book. Reviewed in the United States on April 6, 2022. Verified Purchase. I brought this book with me on vacation to read on the beach and I couldn't put it down! It is extremely well written, humorous, and there are so many unexpected twists that keep you hooked. As a healthcare professional working in an NYC hospital (with a fiancé who is currently doing a surgical residency) I can attest to how realistic the depictions of residency are in this book. My fiancé and I would laugh at almost every sentence written because of how relatable it was for us. The book is set in the 1980's but unfortunately not much progress has been made to improve the lifestyle of physicians in training; they are still just as overworked and a majority of them are sadly suffering the trauma, abuse, and mental health issues described. I absolutely loved this book and will recommend it to everyone, whether they are in the healthcare field or not. If you're debating whether to buy or not- DO IT!

Review by Bobby D.: 5.0 out of 5 Stars. Delightfully captivating and beautifully written. Reviewed in the United States on November 29, 2022. Verified Purchase. I was so impressed with this beautifully written and thrilling novel in every way. The "hook" was absolutely incredible, the characters were realistic and interesting, and I felt newly educated about the hazards of medical training in this country. It is a very unique work for the intelligent reader, and I would HIGHLY recommend it to all comers.

Review by Melanie: 5.0 out of 5 Stars. Captivating storyline, fantastic characters - a can't miss. Reviewed in the United States on March 7, 2022. Verified Purchase. Captivating story that shines a light on the realities of medical residency programs in the US through the lens of characters who immediately hook you. Intersecting storylines coupled with plot twists are brilliant and make it an easy read - couldn't put it down! Recommended for anyone who loves fiction, as well as those who have an interest in a behind the scenes look at the lives of doctors.

Review by Janet: 5.0 out of 5 Stars. Jarring Insights Into Medical Training, and a Great Read. Reviewed in the United States on March 24, 2022. Verified Purchase. I always knew that being a medical resident was grueling, but this novel really gives you a detailed sense of what it's like----the good, the bad and the ugly of it. Next time I'm in a hospital, I will have a whole new perspective on the doctors and staff there! In addition, this book is a fun read of different, interesting characters and their emotions, and it all comes together in some exciting climaxes and resolutions at the end.

Review by Amazon Customer: 5.0 out of 5 Stars. Great easy read. Finished in 3 days! Reviewed in the United States on March 20, 2022. Verified Purchase. This book really is a new House of God. I have never read anything that does a better job validating many of the emotions and turmoil's that residents deal

with on a day-to-day basis. A must read for any doctor, healthcare professional, or reader who wants to dive into that world.

Review by Jesse Glueck: 5.0 out of 5 Stars. A must for every young (and older) physician. Reviewed in the United States on March 28, 2022. Verified Purchase. Even though I completed my training two years ago a lot of the training experience has not changed. The book was a great read and helped make the difficulties I faced seem not normal perhaps, but easier to bear in retrospect. Made me remember the comraderies that helped get me through. Must read for those in medicine and the people who love them.

Review by Marc: 5.0 out of 5 Stars. A great page turner! Reviewed in the United States on June 22, 2022. Verified Purchase. This novel was a wonderful, fast page turner. I highly recommend it, especially for readers who want to know the truth about internship, the glamorous and the not so glamorous side. I look forward to reading Dr Maiman's next novel!

Review by Jillian: 5.0 out of 5 Stars. Fun Read! Reviewed in the United States on March 23, 2022. Verified Purchase. Excellent book. Really enjoyable to read. As someone in the medical field I can truly imagine all the different scenarios. Its a great behind the scenes of what it is like in the early days of being a doctor. I highly recommend!
