Eternal Road Series.

### Detour On The Eternal Road by John W Howell.

The third book in the Eternal Road series. Sam and James are dragged into another strange assignment when a couple of souls on The Eternal Road drop off the radar. Archangel Michael gives them specific orders to resolve the issue and get Billy Ray Chitwood, the national race car champion, and Dale Earnhardt, his guide, back on the task of finding Billy's Eternal Home.

Finally, meeting up with Billy Ray and Dale, the foursome finds themselves in the future where World War III has devastated the country. The team discovers the cause of the start of the war and vows to mitigate that circumstance and save the world from devastation. They encounter their old nemesis, Lucifer, who has in mind trading preventing the war in exchange for Sam accepting his offer to be his queen.

Since Lucifer's offer is a non-starter, Sam and James must overcome Lucifer's interference and work to change the course of history, or humankind is doomed.

**Review by D. W. Peach: 5.0 out of 5 Stars. Loved the way the ending made me reframe the series.** Reviewed in the United States on February 20, 2025. Verified Purchase. In this 3rd "Eternal Road" book, Sam and James, angels tasked with helping departed souls along the eternal road to their final resting place, meet up with two race car drivers: Dale Earnhardt and Billy Ray Chitwood. Lucifer has been at it again, trying to steal the two men's souls, and the angels are determined to prevent that from happening.

Lucifer is as irreverent and destructive as he was in the first two books, and it's hard to look away when he enters a scene. Sam and James, with Billy Ray at first, and later with both racers, are sent to multiple locations by the devil to experience the worst of what human beings have to offer. That includes the shootout at OK Corral, the battle of Bull Run, Hitler's last hour, and a future where a nuclear explosion in WWII has destroyed a huge swath of the US. Because changing the future doesn't interfere with the timeline continuum of the past, the four decide to prevent the war from taking place.

Their goal takes them on a wild goose chase full of unexpected turns, leading them to multiple locations including Russia and the Middle East. Their ability to "jump" to different locations, as well as their ability to time travel in a way that makes them invisible, enables the four to follow clues, rapidly investigate, and prove that they're angels when necessary. I enjoyed following the clues with them and didn't know who started the war until the end.

The end was highly satisfying for an entirely unexpected reason. Sam and James meet with the Archangel Michael for a discussion on the nature of evil. It's a fascinating discussion, so I read it twice. Even better than that, it reframes the entire series of books, tying Sam and James' experience with an existential bow that made sense to me. The books that initially seemed like implausible but entertaining "romps," changed into something much deeper. That was super fun.

Though this book could probably be read as a stand-alone, I'm very glad I read all three (especially based on the ending). Highly recommended to readers of paranormal fiction, stories about the afterlife and major historical events, and imaginative, fast-paced romps with cool endings.

**Review by D.L. Finn: 5.0 out of 5 Stars. A fantastic after-life mystery!** Reviewed in the United States on February 11, 2025. Verified Purchase. This has been a series I have thoroughly enjoyed, and I was looking forward to reading the third story. It didn't disappoint and veered off into a time-traveling mystery. It was great to see all the main characters back, especially James, Sam, and the Oldsmobile, and their current souls to save. Lucifer is also around with his signature humor, although at times I wished he'd go away and leave them alone, but he always did make it a page-turner. There was a nice blend of history and current affairs, and I found it hard to put down during any of their excursions or just in general. I was touched to see a fellow author who we lost as a character. What a great tribute to him. There were some twists, and one completely took me by surprise. This series has taken us to our past, present, and future while growing relationships and making us wonder if this is how it will be. A fantastic story that I can highly recommend.

**Review by Thomas Wikman: 5.0 out of 5 Stars. A Whimsical Adventure in the Mysterious Beyond.** Reviewed in the United States on February 16, 2025. Verified Purchase. When you die there are guides helping you to find your way. When racecar driver Billy Ray Chitwood dies, he gets lost in time and space and his guide, the famous but dead racecar driver Dale Earnhardt, is missing. Upon the orders of Archangel Michael, Sam and James, the expert guides of this series, step in to save the situation. But what is causing this unusual situation? Well, Lucifer is. Lucifer has some nefarious plans that could mean the end for the whole world, a World War III. Can the team, Sam and James, Ray Chitwood, Dale Earnhardt, and the archangel Michael figure out what is going on and prevent doomsday?

This is a whimsical and amusing detective and mystery story. Lucifer appears as a cigar chomping man that reminded me of Loki in Avengers. He is an arrogant, reckless and a rude trickster but also entertaining and he has some charm. The angels appear human, and the team is traveling around the world and back and

forth in time in an Oldsmobile 1956. Don't worry about the time travel, they can't change the past, just the future. As you can guess the setting isn't particularly realistic but that is intentional. The important features are the humor, the clever plots, the fast-paced action, the surprising plot twists at the end, and above all the intelligent and entertaining dialogue featuring some interesting philosophical thoughts.

I have not read the first two books in the series yet, but I think this book stands on its own. It did not feel like I missed something important. I was intrigued and thrilled by the various mysteries that cropped up along the way. I wanted to find out who was responsible for the various mishaps and strange things that happened. Was it Lucifer or a greedy and power-hungry human, or both? And who is Lucifer really? I found the dialogue to be amusing and very entertaining. The character development was strong, with likeable main characters, though Lucifer was unkind and untrustworthy, as expected. I highly recommend this entertaining and unique thriller.

**Review by Gwendolyn Plano: 5.0 out of 5 Stars. A thought-provoking fantasy.** Reviewed in the United States on February 7, 2025. Verified Purchase. This is John Howell's third Eternal Road fantasy, and it is a winner. Like the previous two books, the story involves two angels—Sam and James. These enduring characters are on the road again, seeking lost souls. As they travel through time, they visit familiar Western hangouts with the hope of preventing a catastrophic event. Action, intrigue, suspense, and even humor drive the story forward and keep the reader questioning what will happen next. If you enjoy thought-provoking fantasies, this is one for you.

**Review by P. Wight: 5.0 out of 5 Stars. A book and subject not found with 'mainstream' publishing and why we need books like these!** Reviewed in the United States on February 23, 2025. Verified Purchase. I have thoroughly enjoyed John Howell's trilogy that stars spiritual guides who are as alive as you and me, and the devil, and those looking to find their eternal home. Sound different? It is, and that's why books like these are so important. John Howell explores subjects many of us wonder about but would probably never think of fictionalizing in such a fun and fascinating way. I'd read the first two in the trilogy and was pleasantly surprised when I learned that John was publishing a third in the series. The dialogue moves the story along, history is learned in a different perspective, and overall, reading the books makes a person ponder about life and death and the afterlife. Overall, this book is a fascinating journey with angels who fight the devil for their souls – and those of others. John gives us readers such a unique and creative perspective of the afterlife in page-turning fiction.

**Review by JanS: 5.0 out of 5 Stars. Be Ready to have your mind blown!** Reviewed in the United States on February 12, 2025. Verified Purchase. How do I begin? This book is the perfect mix of history, paranormal, futuristic, time travel, Angels, and a mission as big as the world! I met Sam and James in the first book in this series, The Eternal Road. The premise of all of these stories is that when we die, we have a guide to help us on our journey to find our final resting place. Sam was James' guide. In this story, the famed racecar driver, Dale Earnhardt is assigned to take Billy Ray Chitwood, another famous racecar driver, to his final resting place. Only he doesn't show up. We first meet Billy Ray as an old man stuck in the 19th century old Tombstone Arizona where he meets Wyatt Earp and Doc Holliday. Then, Sam and James are called upon to help find the missing soul of Billy Ray.

It's hard to describe the journey this mission takes them on, but I will say it is a whirlwind of time travel backward and way forward into the future where World War III has decimated the planet. But since that event is in the future, Sam and James must do what they can to prevent it. The author's knowledge of the middle east, the languages, and the concept of time travel is stellar. But the final twist in the story is jaw-

dropping. The wisdom shared by Archangel Michael blows all religious theories out of the water, and I love it! Well done, Mr. Howell. If you're ready for an adventure, pick up this book. You won't be disappointed.

**Review by Andrew Joyce: 5.0 out of 5 Stars. This is Great!** Reviewed in the United States on February 21, 2025. Verified Purchase. Sam and James are off on another paranormal adventure in "Detour on the Eternal Road." And it's about time. I've been eagerly awaiting the next installment in the Eternal Road Series. Mr. Howell's first two books in the series, "Eternal Road: Final Stop" and "Last Drive" were oh so satisfying. And this third installment was well worth the wait.

The imagination of some writers just blows me away. How do they come up with this stuff? I don't know, but I'm glad they do. It's not only Mr. Howell's imagination that blows me away. It's his duteous devotion to detail and his meticulous research into history.

However, let us not forget the future. As the plot thickens, Mr. Howell takes us to a future none of us want see. How will his protagonists handle what they discover? How will they change future history? If they can. That's the question. And it's well worth the read to find the answer.

Bravo to Mr. Howell on a job well done. Is there any chance of a fourth Eternal Road book? One can only hope.

P.S.: All three books work as a standalone.

P.P.S.: Where have I come across the name Billy Ray Chitwood before?

**Review by Elizabeth Gauffreau: 5.0 out of 5 Stars. An Entertaining & Thought-Provoking Read!** Reviewed in the United States on March 8, 2025. Verified Purchase. Detour on the Eternal Road is the third book in John Howell's Eternal Road series, which features two spirit guides, James and Samantha. Their role in the afterlife is to help people who have just passed from life to death find their eternal home. In all three books, I found this version of the afterlife to be a comforting one to think about.

The worldbuilding of Howell's fictional afterlife was done primarily in the first book in the series, Eternal Road: The Final Stop. However, Detour gives enough context of how the afterlife works that it can be read as a standalone. The historical places and events are well researched, and the settings vividly rendered, with lots of sensory detail.

A common thematic thread that runs through all three books is that all is not as it seems. This is particularly prominent in Detour. The book opens with an old man as the point-of-view character who doesn't know who he is, where he is, or how he got there. With the help of Sam, James, and the Archangel Michael, he turns out to be a forty-one-year-old race car driver, Billy Ray Chitwood, who has died in a car accident. Lucifer had intercepted his assigned spirit guide, Dale Earnhardt.

As expected, their old nemesis Lucifer enjoys putting on different guises—including Truman Capote and Adolf Hitler—when he pops up to make a deal for a recently departed's soul. Lucifer is the prime dissembler, always finding new ways to coerce saved souls into coming over to his side. For example, he transports James, Sam, and Billy Ray to 1918 Russia to witness the horrific murder of the Romanov family. Were any of the three to intervene, it would tear the time continuum, thereby enabling Lucifer to collect their souls.

The main plotline is introduced when Lucifer transports James, Sam, and Billy Ray to an apocalyptic landscape in the future. This barren wasted land used to be the United States of America before it was decimated by World War III. It is here they find Dale Ernhart in the guise of leader.

The four of them then stay in the future to prevent World War III. What struck me about this particular plotline is just how Byzantine the causes of a world war are. Again, nothing is as it seems.

The ending took me by surprise with a fundamental twist I never saw coming. However, when I went back through the book to write this review, the twist was foreshadowed in several places. It is a highly skilled writer who can make such a drastic twist believable with foreshadowing, while not giving it away in advance! I heartily recommend *Detour on the Eternal Road*, as well as the other two *Eternal Road* books.

**Review by JoyNealKidney: 5.0 out of 5 Stars Souls in limbo.** Reviewed in the United States on February 13, 2025. Verified Purchase. Souls become lost and need help finding their way to their eternal destinations, a kind of creative ordeal, where time travel helps to skirt some of the trials. Lucifer is a vulgar character, but my favorite is probably the 1956 Oldsmobile.

**Review by Jacqui Murray: 5.0 out of 5 Stars. Recommended for those who enjoy time travel stories, angel tales, and fantasy.** Reviewed in the United States on February 10, 2025. In John Howell's *Detour on the Eternal Road* (Keewaydin Lane Books 2025), Book 3 in the series, Sam, James, and the Oldsmobile are back with a new assignment, this one to rescue the soul of a young man who died but disappeared before his angel could guide his soul to his eternal road. They find him at the OK Corral, just in time to experience Wyatt Earp's famous gunfight, but he has become an old man with no memory of who he is or how he got there. Sam and James set out to first reconnect him with his memories and then get him where he should be for all eternity. The problem becomes that Lucifer seems to have other plans not just for Billy Ray, but for the world and Sam and James figure they should step in and fix things before they can't be rectified. Lots of problems arise covering a wide variety of eras in Earth's existence, the least of which is Lucifer's massive power to control everything around him. How are they to defeat this evil spirit and carry out their task? You'll have to read the book to find out.

This is an exciting romp through time covering many historical events in factual detail as well as future events I have to hope are wrong though derived from current events. This is a good standalone story (I enjoyed it immensely though I haven't read any of the earlier books in the grouping). Characters from other stories will make readers immediately comfortable with the tale and eager to see what happens. Recommended for those who enjoy time travel stories, angel tales, and fantasy.

## **The Last Drive by John W. Howell.**

### **Sequel To Eternal Road (Magical Realism).**

In the sequel to *Eternal Road* - The final stop, Sam and James are reunited to look for two souls, Ryan and Eddie. Ryan was killed in Afghanistan, trying to avoid a schoolyard with his crippled plane. Eddie Rickenbacker, Ryan's hero, is to guide Ryan to his Eternal Home, and now both are missing.

The higher-ups believe that there has been some interference in Ryan and Eddie's journey by Lucifer, so Sam and James have the task of finding Ryan and Eddie to get them back on the road despite the evil interference. Unfortunately, the machinations designed to prevent Ryan and Eddy from completing their journey takes the pair to horrifying testing grounds. The places visited represent the best work of the Devil. They are the trenches of World War I in France, gladiators at the Roman Coliseum, the sinking Titanic in 1912, Hiroshima 45 minutes before the bomb, and the Auschwitz concentration camp in 1943.

This book is for you if you like plenty of action, strong characters, time travel, and a touch of spiritual and historical fiction. So, join Sam and James as they try to find the missing souls while staying one step ahead of the Prince of Darkness, who is determined to destroy all that is good.

**Review by Elizabeth Gauffreau: 5.0 out of 5 Stars. Reviewed in the United States on January 26, 2023. Verified Purchase.**

A Sequel Full of Surprises! As the sequel to *Eternal Road*, *The Last Drive* by John Howell features the two main characters from the first book: James, a young man who was recently killed in an car accident, and Samantha (Sam), a now-grown friend from James's childhood, who was murdered when she was seven years old. In *Eternal Road*, Sam served as James's spirit guide to help him find his eternal home.

In *The Last Drive*, Sam has been asked by the Archangel Michael to find Eddie Rickenbacker, the World War I flying ace, and Ryan Sanders, an Air Force pilot who was recently killed in Afghanistan when he stayed in his burning plane to avoid crashing into a civilian settlement. Eddie is serving as Ryan's spirit guide to find his eternal home; however, the two have gone missing. The Archangel suspects they have crossed paths with Lucifer, who is forever trolling for souls who haven't yet found their eternal home.

Sam's response to the Archangel is the same as mine would have been: " 'I'm surprised God and yourself don't keep track of this kind of thing.' " Including this exchange in the opening chapter is a good demonstration of Howell's skill in suspending the reader's disbelief in the fictional world he has created.

The Archangel's response to Sam's question raises thorny questions of free will, predestination, and Divine intervention. These questions hover over the four main characters' subsequent interactions with

Lucifer. In fact, at one point, Sam proposes a deal with the Devil that took me completely by surprise—but was oh, so right.

As the prime mover of villainy, Lucifer chooses to torture Sam, James, Ryan, and Eddie with a series of moral dilemmas by plunking them into horrific historical events, including the sinking of the Titanic, the Auschwitz concentration camp, and the dropping of the atomic bomb on Hiroshima. For people who are essentially good, this would be the equivalent of being dangled over a lake of fire by one ankle.

However, the Lucifer of *The Last Drive* tries to present himself as the charming rogue or, at times, the cartoonish, mustache-twirling villain—all in an attempt to manipulate the souls he is going after into underestimating him.

One aspect of the novel I particularly appreciated was that, although the same afterlife “rules” were carried over from *Eternal Road* to *The Last Drive*, new ones were introduced that surprised me, in particular that education continues into the afterlife. Although this feature of the afterlife is used as a plot device to give Sam and James the knowledge they need to extricate themselves from Lucifer’s clutches, I think it’s more than that. If we think of the afterlife as eternal paradise, then it makes perfect sense that the ability to learn and gain new knowledge would be a part of it. Learning for its own sake is, at its heart, a joyous and life-affirming act. (Take THAT, Lucifer.)

To sum up, I found *The Last Drive* an engaging and satisfying read. The stakes of the plot are high, the action fast-paced, the historical research thorough, and the main characters well-developed and likable (with the exception of Lucifer, of course). In addition to the other surprises I’ve noted, the ending of *The Last Drive* also surprised me—in the best possible way. I highly recommend this surprising sequel to *Eternal Road*!

## **Our Justice by John W. Howell.**

### **John Cannon Trilogy Book Three.**

The terrorist leader and financier Matt Jacobs has figured out a plan to eliminate the President. He is relying on John Cannon's stature as a hero to help him carry it off. John finds himself walking the fine line of pretending to help Matt while trying to figure out a countermeasure to the plan.

The third book in the John J. Cannon Trilogy brings together two strong wills for a showdown. The question to be answered is who will feel the satisfaction that the achievement of justice delivers? John, Matt or neither?

### **5 Stars: Dangerous World!**

For all you John Cannon followers 'Our Justice' (trilogy book three in the series) is finally here.

To refresh your memory, "My GRL" is book one in the series. Like a lot of businessmen who tolls in an office setting day in and day out John J. Cannon takes a leave of absence from his firm, buys a boat and names her "My GRL". Life was looking up until he wakes up in the hospital and finds out that he was found unconscious beside the woman who sold him the boat. If you have read this book, you know where the story goes, if not, you need to read book one to see how the purchase of this boat brings John into the dangerous world of terrorism, counterterrorism and politics that will either bring out the best or the worst in him.

Book Two of this thriller trilogy is titled 'His Revenge' for a reason but revenge may not be what John imagines. In fact, he unwittingly becomes an accomplice in a plan to attack the credibility of the US President and topple the worldwide oil industry. How will John get out of this without becoming a traitor to his country and endangering thousands of lives?

'Our Justice' is here, and now you must find out if justice is as sweet as revenge. Let me start with a quote from Chapter three to catch you up and whet your appetite.

...The two agents explain something about being called off the case. Ned asks them what they're doing here, and they tell him they're sorry for the way things turned out. We all shake hands, and they go away.

...Ned suggests we go to dinner, and we do. We have a little discussion about the agents, and I think Ned feels it is good riddance. Ned and I finish dinner, and he drops me off at my house again. He wonders if he should come inside to check the house before he leaves. I offer to buy him a beer if he's so inclined. ...He smiles, "You know, a nice cold beer might be just the thing to top this day. Also, I'm going to have an officer come over here tonight."

...I don't say anything about the officer and just nod. We get out of the SUV and start up the driveway. I'm not sure if I see something at the corner of the house or not. "Ned, take a look at the corner of the house to the right."

...He whispers, "Yeah, someone's there. Get down."

...As I move to the ground, flashes come from the dark corner. Ned grunts like someone just hit him in the stomach, and then falls to the ground and rolls over close to me. "Take my gun and start shooting." He reaches out, and I can see his gun and also a lot of blood.

...I take the gun from his sticky hand and fire toward the corner of the house. A dull moan tells me that I've likely hit something other than the building. I get up and hold Ned's gun out in front of me, as I've seen the police do on TV. After a quick move to my left, I run toward the corner of the house, only closer to the bushes in the front. I don't want to be a big target while I make my approach toward the gunman. When I reach the corner, I make out an arm with a gun in the hand. Though the arm is outstretched on the ground, it could be a trap, so I step on the wrist. When I do, the hand opens, and the gun makes no sound when it slips to the ground. With the muzzle of Ned's gun at the person's head, I say a line I've heard before, "One move and you are a dead man."

...Upon looking closer, I can say that my line was a little redundant. I haven't seen too many dead men in my life, but this guy looks dead to me. Still wary, I pick up the guy's gun and sprint back to Ned. When I get there, Ned is still on the ground. "Ned, can you hear me?"

... "Call 911. I need to get to a hospital." "Should I drive you?"

... "No. No offense, but we both need to stay alive."

...I dial 911 and speak to the dispatcher. I tell them where we are and that the chief has been shot. The dispatcher sounds upset and lets me know that EMS and a car are on the way. "Please, stay on the line, Mr. Cannon. I need you to give me some idea of Chief Tranes' condition."

...I assure the dispatcher that I don't intend to hang up. I sit on the driveway and look Ned over. He seems to be bleeding a little less, which I take as a good sign. "Ned, the dispatcher wants to know about your condition."

... "Uh, tell her I've been better, but it's not too serious." He pauses. "And, John, try to make it believable. The dispatcher is my wife, Geneen."

... “Oh my God. I had no idea.”

... “Tell her.”

... “Mrs. Tranes? I just spoke to your husband, and he told me to tell you that he’s been better, but it’s not serious.”

... “I heard him, Mr. Cannon. Please, don’t let Ned die. He is the love of my life, and although he’s one tough son of a bitch, this is just the kind of nightmare I’ve had for years. Please, promise me you won’t let him die.”

I invite everyone to read on to get the answers that both you and John Cannon need. This action, mystery, suspense thriller rivals that of Jack Bower (lead protagonist of the Fox television series 24) and will leave you waiting for John W. Howell’s next book titled ‘The Circumstances of Childhood’ scheduled to be released mid-year 2017.
