Westerns (Fiction-Detective/Bounty Hunter).

Bob Morgan, sometime rangeland detective and sometime bounty hunter is prepared for a quiet summer training and selling some of his horses. When that pleasant, relaxing time is attacked by a crime boss and his daughter, then complicate further by an ungrateful neighbor, he changes his plans to avoid exciting a temper that might be fatal for someone.

Call him a bounty hunter, a rangeland detective, an actor, a chameleon, a puzzle solver; whatever title you choose, Bob Morgan will find a way to reshape depravity, corruption and destruction into the manageable and acceptable. All that is necessary is to not expect too much, appreciate whatever improvement may be realized, and don't look too closely at Morgan's past.

5 STARS: Review of Boundaries by David M. McGowan from Untold Reads. "Unputdownable and richly rewarding".

Set against the harsh yet beautiful backdrop of 19th-century British Columbia, David M. McGowan's 'Boundaries' delivers a rich fusion of Western drama and historical fiction.

McGowan's storytelling excels through a seamless blend of action and reflection, crafting an atmosphere steeped in realism. The pacing is tight, the prose sharp, and the historical detail spot-on. He writes with clarity and precision, rendering both the landscape and historical context in vivid detail—from the rugged terrain to the cadences of frontier speech. The dialogue is authentic, reflecting the patterns and mannerisms of the time, while the characters are well-developed, each with their own complexities and motivations. Bob Morgan stands out as a compelling protagonist—hardened by experience yet deeply introspective. The characters are layered and compelling, drawing readers into a world where law is fragile and morality ever shifting.

'Boundaries' is more than a tale of land and law—it's a meditation on justice, legacy, and what it means to carry the weight of one's choices. A gripping, immersive read that delivers both visceral action and emotional depth, this novel stands tall among the best of modern Westerns. 5 Stars.

Nine short pieces of fiction constructed around 170 years of North American history and interspersed at intervals by fourteen poems.

The first story is a fictional accounting of the first European to reach the Pacific coast of Canada. Following are fictional pictures of the winners and losers who became builders of North America and thus, eventually, all winners and though they didn't know it or want it, builders of what exists today.

Thomas Brash is trying to escape but knows he never will. No thinking person can escape from their past. Pursuing him is the memory of the family he lost to cholera. Perhaps he believes that traveling alone in a wild, dangerous land will end all his memories; there is no doubt he wishes to be alone. Whatever his intentions the appearance of Frank Clement and the circumstances of that meeting upset those plans. Brash views Clement as an uneducated child who requires fatherly protection and guidance. Clement views Brash as a tenderfoot and can not understand how anyone who knows so little could live so long. These two loners are joined by others and they all become partners. Having achieved relative sanctuary and surrounded by civilization their wilderness past comes back to haunt them.

Review by Lydia Efobi: 5.0 out of 5 Stars. Wholesome read! Reviewed in the United States on August 2, 2023. Partners, a spellbinding read by Dave McGowan, is a book about Thomas Brash. The devastating loss of his family to cholera continues to haunt him. He yearns to escape his memories and seeks solace in the wild, dangerous land he traverses, hoping to find peace in solitude. However, his plans are halted due to the unexpected arrival of Frank Clement, whom Thomas tags naive and in need of guidance.

Despite their differences, circumstances cause these two men to form an unlikely partnership. Unfortunately, as they carve out a life for themselves and find relative safety among civilization, their past in the wilderness comes back to haunt them. The memories of their former lives are never far away, and they must confront the harsh realities of their past to find a way forward.

The book offers a unique perspective on the Canadian frontier in 1866. The author's meticulous attention to detail had me drawing my shoulders up close to my ears as I sneaked through the bushes with Thomas. It goes to show you how Dave McGowan excellently wrote the book such that it brings your imaginary prowess to play.

Similarly, the story unfolded at a perfect pace. It was full of twists and turns, and the characters are likable for their unique qualities. The writing style in this book is captivating and engaging, with no dull moments throughout the story. The author's knowledge of Indian customs is impressive, and I enjoyed learning about them as Thomas taught Frank how to interact with the new camp of Indians they encountered.

Inevitably, this book is a 5-star read, and I recommend this book to buffs of adventure, history, and stories of resilience.

Burton Review: "This is a story that flows easily between the concept of camaraderie and the intense events that the partners endure together; I enjoyed the story and think anyone interested in a colonial era type story will enjoy this one.

There is an incident about two-thirds of the way into the book where Brash uses a military tactic ... A brilliant plot piece: loved it."

Review by Barbara Martin (barbaramartin.blogspot.com): "Partners is a well told story that entertains and educates. It's a long book too, providing a big read for your money".

Review by Clayton Bye: "As I said when I reviewed *Homesteader*, if you enjoy westerns or historical yarns, *Partners* will offer a unique and refreshing read".

Review by Anne Boling for Reader's Favorite (5 stars of 5): "*Partners*" is quite an adventure. Dave McGowan is a talented author. Fans of westerns need to make a note of his name for they will want to follow all of his works.

Review by Trudi LoPreto for Reader's Favorite (3 stars of 5): "*Partners*" is a study in human character. David McGowan has written a story that is believable with a strong plot. If you are a fan of Western genre with a thrust in details, this is a book you will enjoy".

Review by Alice DiNizo for Reader's Favorite (5 stars of 5): "*Partners*" by David McGowan is a readable, enjoyable Western about two men distanced by upbringing and age. Good dialogue and short, succinct chapters make "*Partner*" a delightful read for history and western fans alike".

From The Author: I was sitting in a restaurant having some lunch one day and heard two men behind me discussing how a young man and an old man could never get along because of their different experiences or lack of same that would be part of their make-up. I had witnessed, as has everyone who pays attention,

the same clashing of characters but felt sure that a series of shared experiences could alter that difficulty. I therefore wrote a story about it.

My "old" character some may have difficulty with, particularly if they are somewhere between 40 and my age. Tom Brash is depicted as only being in his late thirties but remember, in the tough world of the late 1800s, without antibiotics, army trained "surgeons" who simply cut things off if there was some question about their viability ... well, 40 was "gettin' up there."

My "young" character is also slightly older than many - boys and girls - who were thrust out into a world for which they were ill-prepared. Due to the situations shortening their parents' lives listed above many found themselves on their own while still in the early teens or even younger. However, I wanted my character to go through some trials and tribulations and decided Frank Clement should be old enough to live through those problems, so he had time to become a partner to Tom and the two US Civil War veterans who join them.

Claiming your share of the so called “free” land in the rugged and wide Canadian frontier in the 1880s was a difficult, demanding task. When someone tries to run roughshod over the “nesters” increasing the workload and demands, its time to take a stand.

There is more than bad weather for Hank James to contend with as he rides in search of the land of his dreams and the woman of his heart. Portis Martin, manager of a large cattle company, has no use for the small homesteaders that have begun to pepper the area...and he isn't afraid of using every dirty trick he knows to run them out.

And Portis had been doing a pretty good job of it until what he decides are two saddle tramps, Hank James and his partner, Harry Gilmore arrive in the area.

Hank James wants equality. Hank James wants a life-time partner.

And, damn it, he's going to get both.

Review by David McGowan: 5.0 out of 5 Stars. Facing down a bully. Reviewed in the United States on August 22, 2016. Verified Purchase. Hank James and riding partner Harry Gilmore ride the rails east to look for the woman Hank thought would be his mate for life. They unload their horses and gear at Canmore and immediately make an enemy.

Riding on into Calgary they find Sharon, but Hank is suddenly not sure if she is who he thought she was. He does decide to stay around long enough to see if she is or isn't.

If they are staying around for a while anyway Hank and Harry become homesteaders. When they met Portis Martin east of Canmore, he did not think they showed him proper respect but as homesteaders they became threatening enemies.

Hank and Harry's new enemy is the manager of a very big cattle ranch. He has the money, the livestock, and the manpower. He does not have time for saddle tramps. He also doesn't have a conscience that will interfere with getting them out of the way by any means possible – including attacking this woman that seems to interest them.

From the same vault that holds the work of William Johnstone, Matt Braun, Max Brand, and Louis L'Amour.

Review by R. A. Quinn: 5.0 out of 5 Stars. A must read for any Western fan! Reviewed in the United States on June 2, 2013. Homesteader, Finding Sharon is as unique a western that I have ever read. It takes place in 1886, in Canada. Friends Hank and Harry set out to homestead near Calgary and learn firsthand how ruthless the ones who control the cattle could be. Hank James is different than the average homesteader and stands his ground.

I drove through that area this past summer and this book took me back to some of the most beautiful country Canada has to offer. This is not only a well written story, but it seems to be a history lesson as well. The cattle industry was not limited to the open ranges in the U.S., nor was the fight for that range. You will not be disappointed in how author D.M. McGowan has spun this fine western novel. If you are a fan of westerns or well told stories, Homesteader, Finding Sharon will not disappoint at all.

Review by Marc H.: 5.0 out of 5 Stars. Great reading! Reviewed in Canada on September 21, 2019. Verified Purchase. What a great book. This is my second by D.M. McGowan and I'll be getting them all. Well written.

A Western Adventure.

The year is 1885. Hank James has been in Canada several months panning gold from a stream near Roswell, British Columbia. When he hears a prizefight will be held in town, he attends along with everyone for miles around. With a little help from the fight referee, he wins big betting on the fight. Having realized that the life of a miner isn't nearly as romantic or rewarding as he expected, and with advice from the policeman who helped him win money on the fight, Hank goes to Farwell to haul freight with pack horses for contractors building the transcontinental railroad.

The railroad's security, a detachment of North West Mounted Police, have maintained across the West that no liquor be allowed one mile on either side of the rail bed. Provincial authorities disagree. Hank James believes in honoring and repaying his debts, but that doesn't mean he should be involved in a war between the BC Provincial Police and the North West Mounted.

He and his partners have trouble enough running their freight business, they don't need to be caught between competing policemen. They are already stuck between Canada's transcontinental railroad people and the contractors doing the actual construction. While the police are fighting one another, who is looking for criminals, particularly those stealing Hank's horses? Despite a variety of jobs, D.M. McGowan now works as a commercial driver and lives near Mile "0" of the world-famous Alaska Highway.

His stories bring Canadian history to life. "I believe in seeing morality and societal responsibility rewarded. Too much of today's fiction seems to lead into the dark instead of the light."

Awarded 5 Stars By The Editor At Book Marketing Global Network. US and Canadian History Combined With Legends From The 1800's!

The Great Liquor War by D. M. McGowan is a western pioneering era saga that combines great story telling, true-to-life cowboy experience with US and Canadian history combined with legends from the 1800's.

The main character Hank James was born in Canada and migrated south into the US with his family after the Civil War. Hank's father headed towards Oregon in search of a farmstead while protecting his family from raids by outlaws and Indians. They made it as far as Kansas to find that the land was too dry to farm so pushed on to Oregon to find the land was too wet. With Mother Nature as their biggest obstacle and

many mouths to feed young Hank James set out on his own. He settled down with his own gold mine claim near Rossland, British Columbia in 1984.

Hank wasn't afraid of hard work, but he wanted more out of life than to eke out a living on his claim. With tenacity Hank took advantage of the Transcanada Railroad, found some partners, and started his own freight business. Life should be good, but where there is industry, technology, commerce and economy, there are criminals.

Quote from page 37.

... "It didn't take a detective to know that the horse thief had played a little joke on the Provincial Police. Constable Art Hubbard was over six feet tall and probably ten pounds lighter than the one eighty mentioned in the description. Not only was he a long way from round, he was also clean shaven.

...I gave Constable Hubbard my story, ending with the recovery of the bay gelding and the description I had from Miller. "An' the fella called himself Art Hubbard," I added.

...The Constable's expression didn't change. He worked his chew around into one cheek and sent a stream of tobacco juice into the waste basket. "Feller with a sense o' humor," he noted, and then added. "It'll be one 'o Bulldog Kelley's outfit. They work out o' some of the illegal saloons t' be found back in the bush. We catch one or two of 'em every now an' then, but we can't get Kelley, an' he's the head o' the snake. I can think of one or two that might fit your description, but not a one that had a full beard. An' this fella's probably shaved by now."

...I wrote out my story, signed it, and returned to work."

Between the horse thieves, authority over liquor sales and a war between the BC Provincial Police and the North West Mounted Hank is he in over his head? Only time will tell if he makes the right choices and will he win the heart and loyalty of Sharon Dalton?

Saddle up your horse, holster your gun and join a rugged western cast of characters that will take you back to the reality and the legends of the Wild West.

The Great Liquor War by D. M. McGowan shares nuggets of history told within a great story of human experience in the Wild West.

Review by Charla At Audiobookreviewer.com: Hello David, I wanted to let you know that I finished your submission. What a great book! Having grown up on Westerns and listening to this book - you captured the time frame, essence of characters in that time period were awesome! the plot twists were captivating.

Your narration performance was very well done also. No issues, no complaints, thought you did a professional job. It has been submitted to both audible and amazon. It is live at audiobookreviewer.com.

The Making Of Jake McTavish by D. M. McGowan.

A Western Adventure.

Synopsis: In the west of the 1890s, Jake's wife is raped and murdered, an image from which he attempts to escape and hide. When two thieves try to take what little he has left, Jake realizes he must face the past and solve his wife's murder to truly escape the images in his head. But to find the killer, he discovers even more surprises ...

Jake McTavish left his home in central Canada when he was in his early teens. After working ships on the Great Lakes, fishing Lake Winnipeg, feeding cattle south of Fort Garry, and shooting wolves on the prairies, he starts his own cattle operation in the foothills of the western mountains. Then he meets his life-long partner, Anna.

Jake and Anna were married three years when it all came crashing down. He came home to find his beautiful wife raped and murdered.

In an attempt to escape the vision of his butchered wife and all that he lost, Jake runs deep into the mountains, where he spends three years trapping and panning gold. When two outlaws attempt to rob him and leave him for dead, Jake finally comes out of the stupor he has lived in and begins to fight back.

First, he deals with the two thugs. Next, he returns to his homestead to find his wife's killer. Solving a murder after several years is no easy task, especially when it includes surprises he didn't want to find.

Awarded 5 Stars By The Editor At Book Marketing Global Network. 1800's Western Pioneering Era Saga!

The Making of Jake McTavish by D. M. McGowan is an 1800's western pioneering era saga that combines exceptional story telling with an historical tale told by Peace Country pioneer John Brown.

Well-developed characters and true to life settings with descriptive writing put the reader into the story. The main character Jake McTavish stands alone in his empty cabin with his thoughts that he voiced to his blue tick hound, "Maybe I'll just have t'shoot somebody. That way the government will have t' feed us 'til they punch my ticket and bury me."

Life had been especially hard since the murder of his wife. For the fourth year he must continue his Peace River trek in British Columbia (1898) to take the furs that he had collected by canoe down to Ft. St John.

This is an important ritual as Jake trades bails of skins for cash to pay for supplies and to repair equipment heading into the new season. Times were hard enough without the ambush that knocked him out cold and took most of everything that he had in his camp.

Just 11 years ago "in the spring of 1887 Jake became a wealthy saddle tramp. He only had fourteen Canadian dollars, two U.S. dollars and eighty-six cents, but he was rich in other goods. He had four horses, a fine, double rigged saddle, a short-barrelled Colt pistol, a Colt Navy .36 and a Winchester rifle. He also had a serviceable pack saddle, bed roll, enough food to last a month and the pack covered with two tarps."

By 1889 Jake had spent two years with the Cambridge Cattle Company and had accumulated some money. With a deep yearning for something more and the passing of the Canadian Homestead Act, Jake chose three hundred and twenty isolated acres in the foothills north of the Rocky Mountains. In the fall of 1891 with 15 yearlings to sell he met Anna Porenski. When she married him, he no longer felt driven, because he had it all. Anna was raised on a farm, so ranch life came easy to her and she enjoyed gardening. The only thing missing are children for fate has refused to grant Jake and wife Anna a baby. To end such dreams Anna is murdered and the responding Mounted Policeman comes close to accusing Jake."

Travel with Jake McTavish on a journey to find Anna's killer or killers.

The Making of Jake McTavish by D. M. McGowan for the author's incredible story telling of Jake McTavish. I invite you to also read: The Great Liquor War, Homesteader: Finding Sharon and Partners. D. M. McGowan tells us that Cattle Business is coming soon.

Review by Lydia Efobi: 5.0 out of 5 Stars. One of the best western tales I've read in a while!! Reviewed in the United States on November 27, 2022. The Making of Jake McTavish, by D. M. McGowan, is one 1800s canard set in the west. It encompasses unique storytelling with a chronological tale. This western tale features well-developed characters that are wholesome make-believe. The book is set in such a manner that it is easy for readers to actualize the atmosphere. Without giving too much away, the book follows a young man, Jake, up to his marriage till his wife's rape case and murder. Jake's response to the varied challenges makes up a very intriguing plot. There's a solid diffusion of ecstasy in this book. At first, I was a bit skeptical about the setting, but alas, I enjoyed every bit of the book. The language was easy to connect with, and comprehension was flawless. I would recommend this book to historical mystery buffs. Ultimately, this is a 5-star novel and deserves the broadest possible readership.

Review by JP Blickenstaff: 5.0 out of 5 Stars. Great Story. Reviewed in the United States on June 24, 2021. This is a good Western of 1890 Canada. That historical setting is almost worth the read. But the story keeps your turning the pages. It will not let you quit reading. The story follows a young man up to his marriage But his wife is murdered. The man's reaction, running to escape the devastation, the mystery of the murder and solving the murder makes for a fascinating story. D. M. McGowan wrote a good book.

Review by Amazon Customer: 5.0 out of 5 Stars, McGowan Scores Again. Reviewed in the United States on April 10, 2016. Another good western by D. M. McGowan. The author combines a plot full of twists and turns with a well-described setting mainly in the foothills and mountains of Alberta and BC. There are accurate references to historical events that took place in the area. Interesting tidbits are inserted about how a man could survive in the wilderness if resourceful. The characters are believable. I especially liked Jake's rather cutting wit. Paula, with her independent spirit and determination, is refreshing compared to the paper-thin development of the female in traditional westerns. I'm looking forward to Mr. McGowan's next book - Cattle Business.

Review by Amazon Customer: 5.0 out of 5 Stars. I loved, loved, loved this book. Reviewed in the United States on November 22, 2016. I loved, loved, loved this book. Ended up not getting much sleep that day because I couldn't put it down and the ending was not at all what I expected to be the final result. This is a really great book. It is an easy read and a fascinating story. Very well done and definitely worth the money. Now just have to get the rest of his books.

Review by Dgardi: 5.0 out of 5 Stars. Great Story telling! Reviewed in the United States on March 23, 2016. Darn it all, I'm off my feed this morning. Had to finish the book far into the night. The Chapters were short and kept introducing interesting twists and turns. Great storytelling!

Gunfighters, Thieves and Lawmen by David Milton McGowan.

Sully Wheeler doesn't care why his cattle are disappearing. He doesn't care why but it has to stop. Perhaps it's the cost of hiding from his past, but who would steal from a one-time gunfighter?

The NW Mounted Policeman that Sully contacted appeared more intent on stopping vigilante action than in stopping theft. If that proves to be the case, Sully will recover his own property, even if it takes gunfire to do it.

Who is this Mountie, anyway? Is he a cop or something else entirely? Is he working to support the crown, leave the crown or actually do something for the settlers?

And while we're talking about that Mountie, isn't he spending too much time with that newspaper lady?

A Voice From Beyond by David Milton McGowan.

Anthology.

Lucky: He is a former Confederate officer who has become far less than an “officer and a gentleman”. When he realizes what he has become he tries to see a new future and a new him.

#thief #enlightenment

Stealing Janet’s Cattle: A young mother and rancher discovers cattle missing. She is alone and, according to the tracks outnumbered, but she is armed and she and her family need those cattle. Is this young female rancher as tough as she thinks she is? Tough enough to defeat the more powerful?

#woman #pioneer #planning

A Voice From Beyond: It’s the Great Depression and people will do almost anything to survive. Having been somewhat successful in his search for work, a hobo stops to thank those who helped him rise up from destruction. A simple “thank you” becomes something else entirely.

Into The Mountains by David McGowan.

How do you save your family when they are faced with hate and racism on all sides? How do you avoid fear every minute of every day?

In the years following the North West Rebellion of 1885 many Métis “disappeared” as many went into hiding to avoid racism and mistreatment. Admittedly, some like Gabriel Dumont went south of the 49th parallel into the US. What happened to the rest?

Almost a century later Métis suddenly appeared as individuals and communities throughout the West. Perhaps “Into the Mountains”, fiction though it is, supplies some explanation.

**Deacon by David Milton McGowan.**

Marker of Stone; A fictional recounting of the first European to reach the Pacific Ocean north of Mexico. Was his reception by the local population as he described it in his journal. Perhaps they put up with him hoping he would leave? Another possibility is that they controlled their desire to ensure the strange men left their land.

What We Need Is A Good Cow Dog by David McGowan.

Do you regret that?

Sometimes you might say something to a friend that you regret, however it seemed like a good idea at the time. Perhaps it was funny, true and had to be said, or just your effort to lighten the mood and explain that it wasn't a life and death matter but could be if present efforts continue.

Yes, you regret it, but now it is your turn to relax and stop worrying about it. If this other person was a true friend, they should look back on it all, realize eventually the humour in the situation and laugh along with you.

Invasion by David Milton McGowan.

INVASION!

They lived “off the grid” because in those days and in that area, there was no “grid” to be on. They were homesteaders, farmers, and trappers who might find a dozen people within a day’s walk in any direction.

Suddenly they were surrounded by 10,000 strangers, almost all men and trading for goods they had not known existed.

It was 1942 and the Alaska Highway was being built through 1200 miles of wilderness.

Their system of life, the society they knew was gone with the arrival of one train in Dawson Creek. There were hundreds of more loaded freights scheduled to arrive in a town that might see half a dozen during the fall harvest.

What will happen to these people?

About The Author: Author Dave McGowan has been a cowboy, forest fire fighter, heavy equipment operator, farmhand, gardener, road musician and businessman. He now writes, and works as a commercial driver, in Northern British Columbia.

The forgoing is the bio from the back of my novels, and one might conclude from this information that I was a poor employee ... either lazy or didn't know what I was doing ... and was kicked off a lot of jobs. You

would be partially correct, at least in surmising that I don't know what I am doing. As for my being a poor employee, you would have to ask my bosses ... although I think I've managed to trick the one I have now.

Of course, when I had my own business, my boss thought I was marvelous.

Truthfully, I've managed over the years to find employment regardless of my location or the problems that might exist with the economy. I enjoyed much of that experience at the time and am glad that I attained it.

I've also visited a good portion of North America and lived in several areas of Canada where I met some great people and enjoyed some wonderful country.

Speaking of great people, Karen and I are parents to four great people who have supplied eight grandchildren who show that improvements can be possible in each generation. One of those has added a great-granddaughter to the line.
