## IN THE DAYS OF NOAH, IN AN ANCIENT WORLD OF ANXIETY ...

Noah warned the world about the coming flood yet, outside of his family, no one listened. Ancient prophecies, signs, and omens pointed to coming worldwide disaster-yet no one listened. Signs in the environment and society provided humanity with another set of warnings-yet no one listened!

No one listened ... except for an Atlantean telepathic wunderkind-scientist, Ithyanna. Ithy, as her friends called her, saw the impending destruction and, through her extensive doctoral research, urged the building of at least one space ark to carry a nucleus of humans to safety. But only a handful of people signed on, one of them a wealthy financier-cultural demagogue, and thus work began on Project Life-Escape and its starship of life. Battling ever-growing economic woes, scoffing masses, the duplicity of her benefactor, a growing threat of all-out war with totalitarian Lemuria, and resistance from the Divine, Ithyanna and her project workers toil bravely to save humanity. But will Ithyanna's valiant efforts to get humans to another world succeed ... or fail?

**KIDNAPPED AND ENSLAVED BY ALIENS!**

The Flood of Noah has ended. Much of Earth is in an Ice Age. And Ithyanna, Last Daughter of Atlantis, swims around the world ocean at the command of the Lion of Judah, waiting for His next command.

Suddenly, an alien spacecraft and its occupants capture Ithyanna, probe her mind, and enslave her.

Among her fellow captives are famous persons like Elvis Presley, Amelia Earhart, and Jimmy Hoffa, and more obscure people such as a hostile 1960s female Black Panther, a disgruntled British World War II veteran from 1970, and Ithyanna's aunt whom she has never met – and had a disdain for her younger sister/Ithyanna's mother.

All of them and countless other abductees are forced to mine a nefarious substance with endless industrial applications – but whose fumes are fatal to humans.

Then Ithyanna and many other abductees are forced into mortal combat to fight each other to amuse their bloodthirsty alien masters – until Ithyanna demands a fight to the death with Ultra-Queen Xulra, who is also the devil's daughter!

With the aid of a benevolent philanthropist-adventurer alien and his armada, the humans fight back against Xulra's minions as Ithyanna battles Xulra herself in a war that will determine the fate of the universe!

Will Ithyanna and her comrades be destroyed by Xulra and her subjects – or will she and her fellow freedom fighters win the day and gain freedom and create a new nation based on righteous freedom?

**FIVE POWERS. ONE SPACE PROBE. THE UNIVERSE AT STAKE.**

A few millennia ago, Ithyanna, Last Daughter of Atlantis, a freedom fighter and seeker of truth, had liberated millions of Earthlings enslaved by aliens who founded their own star-leagues upon their being freed.

Curious about how the freed humans' progeny were doing, Ithyanna decided to venture into deep space and find out—but ended up along with a city-sized starship hovering in the airspace over Vietnam's Demilitarized Zone in the Earth-year 1967!

Along with a fighter jet from the US Air Force and a second warplane from North Vietnam, Ithyanna's own spacecraft is tractor-beamed on board the much larger alien vessel. But troubles for the city-sized spacecraft's crew as well as for two American fighter pilots, a war-flier from North Vietnam, and Ithyanna herself were only the beginning.

An enemy espionage space-probe sent by a mad military female demagogue from an alien totalitarian regime crash-lands in the DMZ.

Espionage-military expeditions from the USA, USSR, and the PRC, a team from the city-sized starship

(joined by Ithyanna), and a fifth expedition led by the madwoman who sent the probe all converge on the probe that is causing both a clandestine international crisis among Earth's powers and from the two starships that have come from the near future!

But only one will reach it first.

Which one will get there and claim it?

Will this Vietnam incident create another front in Earth's Cold War beyond the Milky Way?

And regardless of whoever gets to the probe first, is the fabric of spacetime ruined and the Universe doomed—or will spacetime be saved and the Universe keep unfolding as it should?

Prepare for an ultra-impact that will extend across the Universe!

I currently reside in London, Ontario, Canada.
