**The Buccaneers Of St. Frederick Island by Linda Maria Frank**

**Book One: Introduction To Series. Reading Age 7-12.**

What can possibly happen when a crime happens under the very noses of a group of very savvy eighth graders at St. BeSillius' Catholic School on St. Frederick's Island? When the money they raise to buy toys for children in homeless shelters near-by NYC is stolen, the Buccaneers, as they call themselves, are outraged. Despite warnings from Father Felix and Sr. Jo, Sprocket, the leader of the Buccaneers, and her determined buddies set out to follow the clues, run down the thief, and get those toys for the homeless kids.

When their clubhouse is burned down, and a threatening letter is sent to the local newspaper, The Foghorn, owned and operated by Sprocket's mother, the Buccaneers are even more determined to unravel the plot against them. A mysterious island once owned by the pirate, Jon Buccleigh and a

labyrinthine cave serve as the setting for this skullduggery. A Native American healer, her community, and a group of the beach people conspire with the Buccaneers to get that money back.

You will be laughing at some of the Buccaneers' antics and gasping at what those brave eight-graders face to solve the mystery. The story is rich with colorful and engaging characters as well as the flavor of post-war America in 1947. An altogether fun and satisfying read.

**Awarded 5 Stars By The Editor At Book Marketing Global Network. Adventure Sure To Capture A Young Reader's Imagination.**

Author Linda Maria Frank begins this book with her historical notes about where the story originated from. This is very educational for young readers as it addresses her earliest memories in Middle Village, Queens, New York at the end of WWII.

The story begins at St. BeSillius's (catholic school), where mystery Author Linda Maria Frank sets the stage for more than one intriguing mystery (wrapped into one), that in my opinion, out preforms the Nancy Drew mysteries that I read as a young reader.

Within the walls of a small clubhouse (shack) a small band of school friends broke through the strict, stifling, constrictions of the classroom regiment, set in stone, by Sister JoAnn and Mother Superior. This tiny band of self-proclaimed private investigators set out to find out who stole the money they had spent an entire year earning, for a class trip to distribute toys to day care centers in the parish. The money disappeared from the Vestry (small room behind the altar); the very day Father Felix was supposed to open a bank account for the school project.

This small band of PIs came with an official title 'Buccaneers (meaning pirates) of St. Besillius'. They wrote up and voted on a charter (agreement) for their group, which included:

...Each member is sworn to secrecy, under pain of... what? Oh, I don't know.

...All clues are to be shared by everyone.

...All communications would be done using our code names. Mine is Sprocket.

...Our meeting place would be the old fishing shack on the beach.

The hunt for the mystery thief begins, which only leads to more mystery, danger, intrigue, and an ominous warning letter. Each club member had responsibilities related to their investigation. Club name Ratchet (real name Amelia) with her camera (Brownie) was the official photographer. Let me bring you into the story at Chapter Fifteen: Meanwhile, At the Ferry Dock.

...Ratchet would much rather be called by her real name, Amelia. Especially since one of her heroines was Amelia Erhardt, the aviatrix who made news-worthy flights around the world. She disappeared somewhere in the Pacific, never to be found. Ratchet just couldn't resist the mystery of it all.

...However, she would be true to her oath as a Buccaneer and fulfill her mission. She struggled with how to accomplish this. Most days she went to the ferry dock dressed in her reporter's costume consisting of a many-pocketed jacket, borrowed men's trousers, a cap with a green visor, and several cameras strung around her neck, most of which did not work.

...But her trusty Brownie never failed her. Notepad in hand she snapped photos of the ferry passengers going to and from Main. She was too shy, at this point, to go up to them and get that "scoop".

...Today was different. She didn't want to stand out like a sore thumb. Surveillance required melting into the scenery. The outfit for this assignment had her pigtails tucked into a red bandana, her thick lensed glasses hidden behind her dad's aviator shades, and a dark blue jumpsuit, two sizes too big, borrowed from her brother who worked at Fred's only gas station. She was channeling Rosie the Riveter. Rosie, as you may have heard, was another heroine in American history. She and her millions of sisters made the planes, tanks and ships that won the recent World War. Since the war effort for Rosie was over for now, Amelia still stuck out like a sore thumb.

... "Hey, Sis. Halloween's over," called out one of the day trippers.

...Embarrassed, she hid the bandana and pulled out her braids. She kept the glasses, and the coveralls were a must, since taking them off meant she would be walking around in her undies.

...It was getting boring. What was she thinking? This is a lame idea, but duty called, and she settled herself more comfortably. The scents of tar, salt water, and creosoted wood planking joined the piney aroma of the hemlocks to provide a perfume Amelia came to call home.

...Amelia looked up just in time. Janet trotted down the path to the ferry dock. She could have missed her because she had a jacket with a hood. But Janet always wore beaded moccasins, and her pigtails had feathers instead of bows. One braid escaped the hood, sealing her identity for Amelia.

...Amelia, now in Ratchet mode, started snapping again.

...Janet turned her way and Ratchet's heart almost stopped. Ratchet knew how important it was to identify Janet as Janet in her series of photos. Taking a breath and holding it, she snapped away.

...When Ratchet returned to check out the folks getting off the ferry, the strangers she had seen on other days came down the gangplank. Snap! Snap! Snap! They surrounded Janet, one grabbing her arm, the other talking to her, right in her face, grim and threatening. Janet pulled her arm away and snapped back at the stranger who had confronted her.

...The other man jammed something in her pocket. "Just do it," he growled. This was an easy lip read for Ratchet, a skill necessary for a well-trained snoop, er, journalist. Janet turned and ran back up the path. The men got back on the boat.

...What did the stranger put in Amelia's (Ratchet) pocket?

I encourage you to purchase "The Buccaneers of St. Frederick Island" by Linda Maria Frank and share it with all the children in your life. This book would make a great summer reading project for kids. This story will spark their imagination and inspire every child to create their own clubhouse of friends and become private investigators.

**The Monster Bones Of St. Frederick Island by Linda Maria Frank and JoAnn Vergona Krapp.**

**Book 3: The Buccaneers Of St. Frederick Island. Reading Age 7-12.**

Three children whose curious minds find them on a family vacation smack in the middle of an adventure that seems to be just waiting for them. Unknown to our intrepid vacationers, a long-ago group of brave and curious eighth graders on their remote destination island of St. Frederick formed a group of amateur detectives known as the Buccaneers.

Together these clever kids discover some of the ancient mysteries of the island when they use their newfound friends at the local newspaper and the Native American community.

They solve the mystery set on a St. Frederick beach that puzzled the islanders and the scientists who came to observe it.

The Crawford family vacations have always been exciting, surprising and often mysterious, but when they go to St. Frederick Island, they venture into the unknown territory of an ancient mystery. Meeting the original Buccaneers of the island, they venture into the gripping mystery of those mysterious bones.

**Awarded 5 Stars By The Editor At Book Marketing Global Network For 'The Monster Bones On St. Fredricks Island'.** Each summer adventure brings with it memories that will last a lifetime. Douglas and Janet Crawford along with Douglas' best friend Wesley have an uncanny knack for sniffing out trouble, or adventure. In the past three years they uncovered a buried pirate treasure at a lighthouse, a stolen medal from World War Two, and a lost child frightened by bullies. Sadly, they won't be returning to Fire Island this summer. There is a promise of new adventures as the Crawford family arrives in Bar Harbour, Maine. Bar Harbor is a summer delight, surrounded by water and serves as a gateway to the mountains and Acadia National Park. Posters and signs are everywhere on the streets in this small, picturesque village, inviting visitors to experience art, concerts, bus and boat tours, hiking trails, lobster pounds, whale-watching, and, of course, shopping. Here they discover a destination, St. Frederick Island that offers caves and other mysteries to tantalize the amateur detectives.

Once on the island, the Crawfords visit the local island newspaper, The Foghorn, to find out more about it. There they meet Lily, the granddaughter of one of the Buccaneers, a group of kids who formed a club to solve island mysteries. Janet, Wesley and Douglas can really relate to this group.

Let's step back in history where Lily, Frank, Amelia, Leon and Ryan, known only by their code names back then, uncovered some dastardly deeds done by those who did not respect the Native American traditions of the island. Going even further back in time, a huge skeleton was found on the St. Besilius Convent beach. A Native American tribe lived here for centuries. The island has caves with ancient picture drawings. There are lots of superstitions about the bones, like maybe "The Monster" being some kind of dinosaur-like creature.

What adventure will these three young sleuths uncover on St. Frederick Island this summer? You must follow "The Buccaneers Of St. Frederick Island" series to join them on their summer's adventures. Linda's story telling is on par with, perhaps better than the "Nancy Drew" series of the past. Author Linda Maria Frank (past educator) shares her love of ancient mysteries and places with a nautical and pirate history with children around the world. She shares her research into the geology of caves, Native American lore, pirate history and of course, the mysterious creatures of the past.

With a little time travel, Linda Frank and new co-author, JoAnn Krapp, weave a magical series where three generations of detectives, young and old, keep this generation's youth on the edge of their seats. I

invite you to purchase “The Monster Bones On St. Frederick’s Island” (Book Three), “Sibby's Secret” (Book Two) and “The Buccaneers Of St. Frederick Island” (Book One). Linda also has her “Annie Tillery Mysteries”. In this latest of the Buccaneers series, Linda has co-authored with JoAnn Vergona Krapp and illustrator, Marianne Savage to produce this fun, page-turning adventure.

**Awarded 5 Stars By The Editor At Book Marketing Global Network. Indiana Jones Meets Nancy Drew With The skills And Precision Of CSI.**

Annie Tillery Mysteries book three 'Secrets In The Fairy Chimneys' can be summed up as Indiana Jones meets Nancy Drew with the skills and precision of CSI. A mystery unfolds midst a mix of ancient history and modern innovation, in an ageless Eastern country where time moves at a camel's pace.

Dedicated research by author Linda Maria Frank leaves no stone unturned while great description text transports the reader to the streets of Turkey with its mosques and minarets, towers, and modern buildings. One of my favorite quotes from the book is "Water droplets plunked into the pool from the vaulted ceiling. After the heat of the bazaar and the street chase, it was deliciously cool. Ornate columns with carved capitals supported the ceiling. The bases were decorated with animal and human figures. There were a few visitors, but the enormity of the space muffled their conversations."

Strong characters with great dialog bring us to dusty archaeological site in one of the oldest towns in human history called Catalhoyuk. Nothing can explain it better than this quote: "We were in a valley of shapes I couldn't believe were not made by humans, humans with a fabulous imagination. Conical formations called fairy chimneys in various sizes spread away from us in every direction. The color of bleached bones, they sat majestically among the gray-green brush and white clay-like soil. The air shimmered from the heat. I could smell the odor of clay mixed with a faint herbal scent that must have come from the brush."

Cosponsors from Vermont University are looking for a DNA connection between residents of Catalhoyuk and our original nomadic ancestors in Africa. Annie Tillery and her team go to work excavating this archaeological site, with all the inherit dangers and a mystery brings out the detective in Annie.

From the spell of an Ouija board to a magical balloon ride in the sky nothing is lost as this time and space makes all their senses come alive with amazing black and white graphics that bring the main characters to life.

Students and young adults of all ages will enjoy Annie Tillery Mysteries. Although a series each book is unique and stands alone with no need to read in a particular sequence.

### The Mystery Of The Lost Avenger by Linda Maria Frank.

#### Annie Tillery Mysteries Book 4. Reading Age 7-12.

The wreckage of a World War II plane is found in the mountains of Appalachia. It mysteriously crashed in 1943 on its way to a naval base. Inside the plane is a note, written by Annie Tillery's great-grandmother, Charlotte, who was in love with a fighter pilot. Young Charlotte tested the planes and flew them to naval bases; her fiancé flew the planes in battle.

While investigating the crash site, NCIS finds the note in the plane, which they trace to Charlotte and then to her surviving family members, Annie, and her mother Carol. The mystery begins. Why did the plane crash, and what does Charlotte's note mean? Annie and her mother decide to dig into Great-Grandmothers past by way of the aged family attic.

There, they find love letters written by Charlotte and her Navy pilot fiancé. There is a code to be broken in those letters and The Mystery of the Lost Avenger to be solved. As they explore, Annie suspects Charlotte's ghost is reaching out to tell her something, but what? She enlists the help of her boyfriend, newly licensed pilot Ty Egan, but Annie feels she may be the key to her great-grandmothers top-secret life.

**Awarded 5 Stars By The Editor At Book Marketing Global Network. This Book Educates Young Minds!**

Good news for all Annie Tillery Mystery Followers. The Mystery Of The Lost Avenger (book 4) is finally here. This book educates young minds using this fictional mystery that involves NCIS investigating the crash site of a World War II plane.

Turns out the pilot was Annie Tillery's great-grandmother Charlotte who was a test pilot for Grumman and actually flew in battle. Annie, her mother Carol are intrigued by Charlotte's note and decide to dig through the old family attic to see what they can find out about this mysterious family member. What they discover in the attic only adds to the mystery and soon Annie suspects that Charlotte's ghost is reaching out to them from beyond the grave with an important message.

Annie's decides to get her boyfriend Ty Egan who happens to be a pilot involved. Here is their conversation.

... "Ty, you won't believe what Mom has been telling me about a mystery concerning my great-grandmother. Mom, this is your story, and maybe Ty can see something we don't. Can you fill him in on the details, so far? I'm just hearing this story for the first time, too."

... "Well, let me start with..." She shuffled the papers in her lap. "Here's the letter we received from the Department of the Navy. And here's a copy of a note we found in the plane. The note is written on some sort of a company form with an identification number on it. The number belonged to Charlotte, my grandmother."

... "I also have a letter from the Naval Crime Investigation Service about the condition of the plane where they found the note, and the pilot they found in the wreckage. There are skeletonized remains of a person whose identity they are trying to confirm. They know who flew the plane when it went missing, but they must confirm that it is that person. It is a woman."

...Mom added a new thought, "You know, it's ironic. Charlotte did die in a plane crash many years later. She continued to fly recreationally after the war. When I went to Maryland to see if there was any record of her time at Grumman, I found these letters in the house where Charlotte spent her last years."

Students and young adults of all ages will enjoy The Mystery Of The Lost Avenger. Although a series each book is unique and stands alone with no need to read in a particular sequence.

Message From Linda Maria Frank: Hello, fellow mystery lovers. As a teacher of forensic science for almost 20 years, I decided to create mysteries around the science I found most interesting. I also wanted to create a smart, edgy, young female detective to solve my cases. The result was Annie Tillery. I like to call my books "Nancy Drew meets CSI". My books capture, not only my love of mystery and science, but those things I found most exciting in life; sailing, falling in love, and my fascination with New York City.

Currently, I am living on Long Island and working hard to promote my books.

The third Annie Tillery mystery, *Secrets in the Fairy Chimneys*, revolves around another topic I find fascinating, and that is archaeology. It takes place in Turkey. This story is packed with heart stopping page turning drama.

The latest book, *The Mystery of the Lost Avenger*, investigates a cold case involving Annie's great grandmother who was a test pilot for Grumman Aviation during WWII. Go back in time to solve an unexplained plane crash involving sabotage and great grandma, Charlotte Wheeler, and her fighter pilot fiancé.

Stay tuned for more thrilling and dangerous adventures for Annie and that oh-so-sexy Ty.
